No. L. T. / 151 of 1885-86.

To

THE DIRECTOR OF AGRICULTURE,

Poona.

SIR,

As arranged in Bombay Government Resolution No. 2220 of 16th March last, Revenue Department, I have the honor to forward herewith, for submission to Government, the returns of road and rail-borne trade of the Bombay Presidency for the offical year 1884-85, together with my comments thereon.

Rail-borne Trade.

2. The system under which this trade is being registered having been described in, I hope, sufficient detail in my Report on the Returns for the last year, I will indicate here only the changes that have taken place during the year under review.

3. The first change relates to the classification of articles the trade in which is registered. The Government of India reduced the number of articles from about 99 to about 80 eliminating some and adding others.

4. The second change refers to the forms in which the rail-borne trade statistics are compiled. Instead of two statements, one for imports and the other for exports, for each of the internal blocks, two statements, are now used one to show the trade of the internal blocks with the external ones, and the other, to show the trade between the internal blocks themselves; while a third statement is introduced for comparison of the trade of the province with the other imperial blocks, from year to year.

5. The third change has reference to the addition of a sixth internal block, under the name of the "Southern Marátha Railway" a portion of which was opened for traffic on 1st August 1884, a length of about 173 miles from Hutgi to Gadag.

6. Besides these changes, quarterly returns of rail and road-borne trade are published in the *Bombay Government Gazette* with a brief review of the figures for the former and separate copies of the returns are printed and supplied to the different local Governments and Administrations, to the local Chamber of Commerce and the Mill-owners Association, to the officers in other provinces who register similar statistics, and to certain newpapers.

7. Under orders from the Government of India No 270-4-7 of 27th November 1884, Revenue and Agricultural Department, the figures compiled in the B. B. & C. I. & G. I. P. Railway branches of my office which were, up to the quarter ended 30th September 1884, shown in separate statements have now been amalgamated, as that Government requires information only for the Presidency of Bombay and not for each Railway separately.

8. The valuation of the trade has been effected mostly in accordance with prices furnished by the customs authorities here.

9. The change in the forms in which the accompanying returns of rail-borne trade are prepared does not enable me to show the values of the commodities *imported* by the various internal blocks in the case of the local traffic, and *exported* as well as *imported* by them in the case of the trade with the external blocks, and I am therefore compelled to adopt the alternative of comparing quantities with quantities; but this course is perhaps preferable to a comparison of values with values from year to year as these are subject to fluctuations in the rates at which they are calculated.

10. The adoption of identical forms, blocks, and classification of articles by the several registering offices in India, has given Government the means of discovering discrepancies in the figures returned by these offices which, however,

are unavoidable under present circumstances, as I have on more than one occasion ventured to point out to Government, with whom rests the settlement of the difficulties incidental to the present system of registration.

11. With these preliminary remarks, I proceed to review the figures of the rail-borne trade as they are of more importance and are in fact more reliable than those of the road-borne trade. I propose to be as brief as possible inasmuch as in my report for the preceding year I attempted to notice all the important features which the statistics presented with reference to the capacity of the several blocks and the articles in which they dealt.

12. The entire rail-borne trade for this Presidency is compared in the following table :—

Description.	Quantities and Percentages.				Value and Percentages.			
	1883-84.		1884-85.		1883-84.		1884-85.	
	Mds.	Per cent.	Mds.	Per cent.	Rs.	Per cent.	Rs.	Per cent.
1 Trade between internal blocks	26,137,552	44	27,515,582	43·5	18,01,22,146	41	20,93,37,730	45
2 Imports into internal from external blocks	25,325,449	43	28,088,168	44·4	18,29,80,450	41	19,02,15,133	40
3 Exports from internal to external blocks	7,661,331	13	7,674,546	12·1	7,95,96,589	18	7,09,09,221	15
Total ...	59,124,332	100	63,278,296	100·	44,26,99,185	100	46,96,32,084	100

The trade thus appears to have increased 7 per cent. in weight cent. in value. Over six per cent. of the weight consisted of miscellaneo which could not of course be valued. The table indicates the division a of the trade under the three heads, namely, the trade carried on bet different places within the Presidency ; and the import and export trad them and places outside the Presidency. The transactions under the heads are nearly equal but those under the third head are comparatively

13. The imports from the external blocks being greater than the to them, the balance of trade due by this Presidency to the other pro amounts to Rs. 12,01,05,912 as appears from the above table and the foll details :—

Blocks.	Value of Imports.	Value of Exports.	Differen
	Rs.	Rs.	Rs.
1. Punjáb	1,09,09,832	82,05,230	+ 27,04,6
2. Sind	9	98	—
3. Rájputána and Central India	7,38,33,983	1,82,87,230	+ 5,55,46,75
4. North-West Provinces and Oudh... ...	1,54,75,682	85,42,970	+ 69,32,71
5. Bengal	1,67,260	1,17,533	+ 49,727
6. Calcutta	54,420	41,054	+ 13,366
7. Central Provinces	5,55,91,631	1,62,50,315	+ 3,93,41,316
8. Berár	2,34,65,260	85,73,905	+ 1,48,91,355
9. Hyderabad	79,25,612	70,57,924	+ 8,67,688
10. Madras Presidency	27,91,444	30,32,962	— 2,41,518
Total ...	19,02,15,133	7,01,09,221	+ 12,01,05,912

The greatest balance is in favor of Rájputána and Central India, caused by the import of opium from that block. Next to it is that for the Central Provinces. It is presumed that these balances are paid back mainly in cash.

14. The increase in the trade of the year is believed to have been caused by greater activity in the trade with foreign countries, by the expected outbreak of hostilities on the North-Western Frontier, the warlike operations between France and China, and the fear of the occurrence of famine or scarcity in certain parts of India in consequence of the rainfall having been less than the

average in the first three months of the monsoon of last year, in most of the provinces in India. The more copious rainfall in the Central Provinces has resulted in more bountiful harvests and therefore in greater exports of food grains and oil-seeds from them.

15. The external trade is shown in the following table with special reference to the internal blocks of the Presidency :—

Blocks.	Imports.				Exports.			
	1883-84.		1884-85		1883-84.		1884-85.	
	Mds.	Per cent.	Mds.	Per cent.	Mds.	Per cent.	Mds.	Per cent.
1. Bombay Port	22,136,587	87·4	24,639,336	87·7	4,748,417	62·0	4,585,125	59·7
2. Gujarát and Káthiáwár ...	743,388	2·9	657,498	2·3	869,881	11·4	992,856	12·9
3. South of Narbáda and below the Ghats.	200,363	0·8	250,818	0·9	1,420,267	18·5	1,517,946	19·8
4. Khándesh, Násik, and Ahmednagar.	1,715,346	6·8	1,662,321	5·9	343,748	4·5	258,837	3·4
5. Poona and Sholápur ...	529,765	2·1	859,162	3·1	279,018	3·6	309,550	4·0
6. Southern Marátha Railway.	.....	...	19,033	0·1	.....	...	10,232	0·2
Total ...	25,325,449	100	28,088,168	100	7,661,331	100	7,674,546	100

It will be observed that with the exception of Gujarát and Káthiáwár, and Khándesh, Násik and Ahmednagar in *imports* and Bombay Port and Khándesh, Násik and Ahmednagar in *exports*, all the blocks show increases. The quantities and percentages clearly indicate the extent of the commercial transactions of each block with external Provinces. I regret that the returns do not enable me to show their value. On the whole, an increase of nearly 11 per cent. is observable in the imports, most of which is absorbed by the Bombay Port and Poona and Sholápur blocks. The increase in the exports is very trifling.

16. The chief articles of import and export with the other provinces are compared in the table below :—

Exports.			Imports.		
Articles.	1883-84.	1884-85.	Articles.	1883-84.	1884-85.
	Rs.	Rs.		Rs.	Rs.
Cotton Twist and Piece goods European	2,36,28,000	2,25,10,000	Opium	4,70,56,000	5,48,24,000
Tobacco	1,19,49,000	21,43,000	Cotton, Raw	4,13,07,000	3,17,19,000
Railway Material	67,66,000	30,07,000	Food-grains	3,86,67,000	4,55,04,000
Metals	55,23,000	62,98,000	Oilseeds	2,92,46,000	3,81,85,000
Salt	53,93,000	61,50,000	Hides and Skins	69,07,000	51,49,000
Cotton Twist and Piece goods, Indian	52,59,000	69,80,000	Wool	30,96,000	6,38,000
Hides and Skins	35,85,000	15,47,000	Provisions	24,18,000	30,04,000
Fibrous Products	26,96,000	27,59,000	Spices	22,66,000	13,18,000
Spices	26,69,000	34,32,000	Dyes	19,55,000	26,49,000
Liquors	21,22,000	16,18,000	Cotton Twist and Piece goods, Indian	16,18,000	12,22,000
Provisions	27,09,000	18,69,000	Railway Material ...	12,83,000	10,13,000
Sugar	14,81,000	44,21,000	Tobacco	10,73,000	94,000
Oils	7,69,000	14,82,000	Sugar	9,08,000	3,79,000
			Horns	4,09,000	3,46,000

In exports, the increase in sugar, oils, metals, salt, and cotton twist and piece goods Indian, and the decrease in Railway material, hides and skins, and cotton twist and piece goods European, and tobacco, are noticeable. But the decrease in tobacco is due to the price per maund being returned less this year than last, viz., Rs. 11-2-3 against Rs. 68-9-1 the former being for Indian and the latter for foreign tobacco.

In imports, increases are observable in opium, food-grains, oilseeds, dyes and provisions, and decreases in cotton, raw, hides and skins, wool, spices, cotton twist and piece goods Indian, and tobacco.

It need scarcely be stated that most of the export and import trade is with the Bombay Port.

17. The following table shows the quantities of important commodities moved *every quarter* into and out of the Presidency and interchanged between the six internal blocks. Generally speaking, the traffic transacted from January to June is greater than that from July to December; most of the traffic in cotton, wheat, linseed, mustard seed and salt is dealt with in the quarter ending 30th June; while the imports of wheat, other food-grains, hides and skins, opium and mustard and til-seed from External Blocks are greater than the quantities locally supplied; the local supply of coal, cotton goods, liquors, metals, oils, linseed, railway plant and rolling stock, sugar and tobacco is greater than that from the External Blocks; of the total trade, wheat is 22 per cent., linseed 10 per cent., coal 8 per cent., cotton raw, other food-grains and railway plant and rolling stock 7 per cent., each. Salt 5 per cent., tilseed 4 per cent., mustard seed and provisions 3 per cent. each and cotton goods, metals, other oilseeds and sugar 2 per cent. each; salt, railway plant and rolling stock, metals, cotton goods and sugar are the principal commodities exported by this Presidency to the other Provinces.

18. This table will perhaps enable you to judge how far the official year covers the transactions connected with the year's harvests, that is, how far the products of the annual harvests are disposed of in the year ended 31st March. If none of the products are completely disposed of by that time, the question raised by the Commissioner Hyderabad Assigned District, in paragraph 50 of his report on the trade of those districts for the year 1883-84, as to whether for reasons therein given the year of report should not be altered so as to end with 30th June instead of 31st March, is worth consideration.

19. The following table shows the imports and exports of trade interchanged between the six internal blocks:—

Block.	Imports.	Per cent.	Exports.	Per cent.
	Mds.		Mds.	
(1) Bombay Port	12,250,369	45·	10,402,058	38·
(2) Gujarát and Káthiáwár	3,660,823	13·	4,127,272	15·
(3) South of Narbada and below the Ghâts ...	4,577,585	17·	4,889,528	18·
(4) Khándesh, Násik and Ahmednagar ...	2,890,694	10·	5,321,125	19·
(5) Poona and Sholápur	3,951,359	14·	2,591,632	9·
(6) Southern Marátha Railway	184,752	1·	183,067	1·
Total ...	27,515,582	100·	27,515,582	100·

It will be observed that all the blocks except the Bombay Port and Poona and Sholápur exported more than they imported.

20. The values of exports in the above table are compared with those of the exports for the last year in the table below:—

Block.	1883-84.	Per cent.	1884-85.	Per cent.
	Rs.		Rs.	
(1) Bombay Port	5,49,30,758	31·	5,74,44,407	27·
(2) Gujarát and Káthiáwár	4,92,62,390	27·	7,45,49,732	36·
(3) South of Narbada and below the Ghâts ...	1,92,90,108	11·	1,57,35,407	7·
(4) Khándesh, Násik and Ahmednagar ...	3,25,90,024	18·	3,59,83,852	17·
(5) Poona and Sholápur	2,40,48,816	13·	2,42,90,805	12·
(6) Southern Marátha Railway	.....	...	13,33,527	1·
Total ...	18,01,22,146	100·	20,93,37,700	100·

While the increase in the quantity is 5 per cent. that in value is 16 per cent. the difference being due to the value of the intoxicating drugs other than opium being calculated at a very high rate per maund which was not given last year. The greatest increase in value is that in Gujarát and Káthiáwár. The trade of all the blocks except South of Narbada and below the Ghâts has increased. The divergence in the percentages of quantities and values of the exports, is explained by the interchange of traffic of more or less value.

21. The trade between the internal blocks, in respect to principal commodities, is compared in the table below:—

Articles.	1883-84.	1884-85.	1883-84.	1884-85.
	Mds.	Mds.	Rs.	Rs.
Coal	4,734,621	4,237,167	24,41,288	25,59,954
Cotton, raw	2,920,216	2,801,138	5,36,43,759	5,00,70,342
Cotton goods	504,802	529,845	2,12,93,584	2,14,99,669
Drugs and Chemicals ...	496,177	349,782	25,17,182	3,63,82,700
Dyes	219,556	355,390	18,41,092	90,37,829
Food-grains	3,286,595	3,664,887	89,95,975	1,06,69,738
Hides and Skins	31,347	48,030	16,70,530	22,19,911
Liquors	66,117	51,780	22,43,456	18,58,979
Metals	713,459	712,404	66,71,383	64,80,555
Oils	235,949	326,848	27,14,500	60,72,554

Articles.	1883-84.	1884-85.	1883-84.	1884-85.
	Mds.	Mds.	Rs.	Rs.
Oil-seeds	2,836,841	3,222,989	1,07,42,830	1,43,07,755
Opium...	6,811	1,409	49,03,140	9,93,895
Provisions	1,058,859	1,216,972	87,88,924	69,62,765
Railway material	2,507,395	3,235,864	1,15,18,345	97,07,592
Salt	927,892	961,466	22,90,732	24,08,665
Silk	7,521	7,779	11,97,763	27,17,390
Spices	239,710	262,783	58,28,987	59,68,732
Sugar	868,519	1,080,455	76,78,040	91,60,099
Tobacco	130,748	162,418	89,65,090	18,09,451
Wool	29,177	29,410	13,69,286	12,52,297

Increases are observable in the quantities of cotton goods, dyes, food-grains, hides and skins, oils, oil-seeds, railway material, salt, spices, sugar, and tobacco, and decrease in coal, cotton raw, drugs and chemicals, liquors, metals and opium.

22. As the statements of the rail-borne trade clearly indicate the transactions between the several blocks in respect of the various commodities, and the latter are fully dealt with in my report for the preceding year, I do not propose to review them this year. But before proceeding to comment on the figures of the road-borne trade, I beg to offer some general remarks on the rail-borne trade.

23. As most of the traffic carried by railways from place to place consists of agricultural produce, I would glance over the agricultural statistics that have come under my notice from the General Administration Reports of the Bombay Presidency and other sources.

24. I find that in the Presidency proper, *i. e.*, if Sind be excluded, nearly 22 millions, nine hundred and five thousand acres were under cultivation in 1883-84 and distributed as under :—

Class.	Description.	Area under Cultivation.	Per cent.
		Acres.	
I.	Cereals	15,958,976	69·7
II.	Pulse	2,042,115	8·9
III.	Orchard	94,621	0·4
IV.	Drugs and Narcotics	63,243	0·3
V.	Condiments and Spices	126,181	0·5
VI.	Starches...	8	0·0
VII.	Sugars	84,101	0·4
VIII.	Oil-seeds	1,309,179	5·6
IX.	Dyes	17,056	0·1
X.	Fibres	3,209,423	14·0
	Total ...	22,904,903	100·

25. Now, with the view of ascertaining approximately the yield of principal commodities, and of comparing the total produce with that carried by the railways between different places within the Presidency and exported to other

Provinces, I would use the average rate per acre as given in the statement that accompanied your No. 1002 of 25th July 1885 (and which I beg to append), and set forth the result in the following table:—

Article.	Acreage under cultivation in 1883-84.	Average Yield per Acre.	Total Yield.	Trade between Internal Blocks and Exports to other Provinces in 1884-85.	Per cent.	Value of the Total Yield.
	Acres.	Lbs.	Mds.	Mds.		Rs.
(1) Cotton, raw...	3,141,507	348	13,665,556	2,811,574	21·	24,42,71,813
(2) Wheat ...	1,993,728	831	20,709,850	2,302,647	11·	6,55,81,192
(3) Jowár ...	6,158,418	1,003	77,211,166	311,662	0·3	23,97,01,354
(4) Bájri ...	3,841,559	724	34,766,109			
(5) Rice	1,547,118	1,505	29,105,158	229,481	0·8	9,11,05,208
(6) Gram ...	1,209,903	531	8,030,732	230,392	3·	2,03,69,617
(7) Linseed ...	241,625	412	1,244,369	1,611,831	129·	49,70,995
(8) Til-seed ...	328,988	520	2,138,422	569,863	27·	1,10,26,238
(9) Sugar, raw...	76,409	4,567	4,362,000	658,220	15·	2,57,40,344
(10) Tobacco ...	59,012	2,298	1,695,120	354,787	21·	1,88,84,695

If the acreage and the average yield per acre as shown herein be at least approximately correct, the other figures in the above table may be considered to be proportionately reliable also. The percentages of the quantities moved by the railways on the total yield represent to that extent their usefulness in the transport of the goods.

26. If 9·125 maunds be taken to be the quantity of food-grains which a person consumes during a year, it will be found that the population within the Bombay Presidency as ascertained by the census of 1881, *viz.* 16,454,414, requires every year 150,146,528 maunds of food-grains for consumption, and the above table affords a proof of the fact that the produce of food-grains is barely enough for the support of the population and that therefore the Presidency instead of exporting, sometimes finds it necessary to indent on the other Provinces for articles of subsistence. The necessity therefore of bringing under cultivation as much more land as possible is apparent. But the smallness of the traffic in cotton, raw, carried by the railways compared with the yield as shown by the figures in the fourth and fifth columns of the above table, indicates that the hand-loom weaver does not suffer much in competition with the spinning and weaving mills in India and the United Kingdom. As regards wheat, which is not a food-staple of the people in this Presidency, it would appear that, if it is not being stored, it is being used as an ordinary article of food; but then so much production of wheat without apparent demand in the mofussil is inexplicable. It might therefore be assumed that a reduction in the rates for its carriage by rail would attract it in larger quantities from the centres of production to the centres of population and also to the port of Bombay.

27. From the figures in the last column of the above table, it would appear that the value of the total yield of the food-grains therein specified comes to over forty-one crores and sixty-six lákhs rupees, and if this be taken to be the expense incurred by the population of the Presidency for the purchase of the food-grains, the expense per head per annum on this account is a little over twenty-five rupees. That nearly two crores of rupees should be spent on tobacco by a population generally held under sway by strong religious influences is remarkable, not to speak of the expenses on account of liquor, opium and other narcotics used by it. The exports of food-grains and tobacco from this Presidency to other Provinces being comparatively small, these conclusions appear to be warrantable.

28. To show how far railway communication has asssisted in supplying some of the wants of England and other Western countries and of the mills that have been springing up here, by stimulating land-holders to bringing more and more land under cultivation as demands increased, I append three statements

exhibiting the acreage under cotton, wheat and oil seeds in the different districts of the Bombay Presidency from the year 1868 to 1883-84. The figures are collected from the General Administration Reports of the Bombay Presidency, but I must observe that for some districts and for some years they are not available, probably because the information was not forthcoming in time for incorporation in the reports. But to give a general idea as to how the progress of railways affected the acreage, I transcribe below in tabular form the total figures for the Presidency together with the average price per maund of cotton, and average quantities of wheat in seers sold per rupee in Bombay as given in a publication by the Government of India entitled "Prices of Food-grains and Salt throughout India, 1861—1883". From these it will be observed that the area under the three heads for 1883-84 is the highest hitherto recorded, that the effect of the increase in the area is, in the case of wheat to reduce, and in the case of cotton rather to enhance, the prices since the famine years; that the increase is nearly 12 lákhs acres, in the case of cotton, 10 lákhs in the case of wheat, and 6 lákhs in the case of oil-seeds; and that the occurrence of the famine has materially retarded the progress of trade in these articles :—

Year.	Cotton.		Wheat.		Oil-seeds.
	Acres.	Per Maund.	Acres.	Seers per Rupee.	Acres.
		Rs. a. p.			
1868-69	1,947,505	.....	... ..	...	.....
1869-70	2,230,739	.....	.....	...	.....
1870-71	2,530,123	.....	.....	...	.....
1871-72	1,982,487	27 0 0	1,035,508	9·19	733,706
1872-73	2,118,397	21 0 0	1,045,180	10·55	257,871
1873-74	2,266,379	15 9 0	1,203,523	11·64	563,672
1874-75	2,282,844	13 3 8	1,061,037	12·33	632,725
1875-76	2,508,117	16 3 9	849,351	11·88	780,282
1876-77	1,352,053	16 3 9	561,519	11·64	627,958
1877-78	1,796,124	16 3 9	886,012	8·21	761,438
1878-79	1,746,034	16 3 9	1,026,177	6·58	864,262
1879-80	2,064,433	18 9 0	976,947	6·93	899,805
1880-81	2,211,308	18 12 0	1,352,474	8·93	1,012,836
1881-82	2,422,908	19 9 6	1,355,851	10·99	1,145,945
1882-83	3,072,660	20 4 0	1,330,107	10·37	1,156,280
1883-84	3,141,507	18 4 6	1,993,728	10·29	1,309,179

29. The statements also show that cotton is very extensively grown in Khándesh, Dhárwár, Káládgi, Ahmedabad, Broach, Belgaum and Surat Districts; that more than half the acreage under wheat (1,143,000) is in districts constituting the Central Division, one-fourth (507,000) in the Southern, and one-sixth (342,000) in the Northern Division, and that 8 lákhs of acres are cultivated with oil-seeds in the Central Division, $3\frac{2}{3}$d lákhs in the Southern and $1\frac{2}{5}$ lákhs in the Northern Division.

30. Khándesh is the district in the Presidency which surpasses all others in the area devoted to the cultivation of the articles under the three heads. It has 1,012,291 acres under cotton, 382,470 under wheat and 198,788 under oil-seeds and is therefore believed to be the richest of them all.

31. The establishment of through communication by Railway between Bombay and the different neighbouring provinces has made Bombay what it is. The tapping of the Central Provinces "the granary of India", and of the Berárs, North-West Provinces, Punjáb and Bengal, was commenced by joining Bombay with Nágpur in February 1867 and with Jabalpur in March 1870. Its connection with the Nizám's territory and the Madras Presidency was completed in May 1871. With Gujárát it was joined in November 1864 and with Káthiáwár in December 1880. Its communication with Rájputána and Central India *viâ* Ahmedabad was established in 1879 and *viâ* Khandwa in August 1874.

32. What proportion of the different castes and communities are engaged in the rail-borne trade is a question of importance, and susceptible of solution by reference to the invoices on which the details in respect to the consignment of goods are shown; but this is a work of great labour and cannot be accomplished by the limited staff working under me. But an inquiry limited to particular stations to be selected annually would in a few years accumulate a mass of information in this connection, which cannot but be useful.

33. How much of the rail-borne trade consists of articles imported by *road* from the neighbouring territories, as also how much of the exports to those territories consists of articles borne by *rail*; what railway stations serve as inlets and outlets for them; what persons chiefly deal in the trade; and what the sources and destinations of the different articles are; all these are questions regarding which no information is at present available. If you agree in the necessity of obtaining it, you will no doubt separately arrange with Government for its collection.

34. From the Statement I. you will observe that the expenditure on account of salaries, &c., of the staff for registration of the rail-borne trade was Rs. 3,852 while that for the road-borne trade was Rs. 10,973. The disproportion between the two figures, judged by the extent, value and accuracy of the work turned out by the staff under me and that at the Nakas, will, I hope, suggest to Government the necessity of strengthening the establishment under me, poorly paid as it is, in the arrangements which may have to be made in connection with the registration of the *internal* Road-borne Trade of the Presidency, and especially in view of the suggestions made in paragraphs 32 and 33 above.

35. Very few changes either in the rates or classification of important articles appear to have been made by the Railway Companies and are not therefore noticed here.

36. I will now proceed to deal with the figures of the road-borne trade.

ROAD-BORNE TRADE.

37. The circumstances under which, as stated in paragraph 84 of my report for the preceding year, the statistics in connection with this trade are collected continued to exist in the year under report, but for obvious reasons and with the approval of the Commissioner of Customs, the classification of articles has been assimilated to that prescribed by the Government of India for rail-borne trade, and their valuation is done in this office at the prices furnished by the Customs authorities and referred to in the earlier part of this report. The figures to be reported upon are therefore not more reliable than were those for the previous years. As the object with which the registration of this trade is undertaken renders accuracy in the figures collected of great importance, I think that some means for ascertaining the weight of the articles, such as the supply to the Nákedárs of moveable weighing scales, should be taken, and that better supervision and more experienced registering clerks should be provided.

38. I append a map showing the positions of the Nákas as desired by Government (*vide* Bombay Government Resolution No. 9158 of 18th November last) as well as the blocks into which the Railway lines in India have been divided for registration of the rail-borne trade of the Bombay Presidency. Some of the principal routes which serve as feeders to the Railways or by which trade is carried are shown therein. It has been prepared by the Superintendent, Government Photozincographic Press, Poona, but the scale on which it is drawn does not enable one to ascertain with precision the connection of the roads with the Railway stations and other places.

39. I also append a statement showing the expenditure incurred on account of the Náka establishments during the year under review, from which it will be observed that the total outlay amounted to Rs. 10,973-11-0, of which Rs. 10,510-10-1 were on account of salaries and Rs. 463-0-11 on account of contingencies.

40. Quarterly statements of the road-borne trade for each of the districts continued to be published in the *Bombay Government Gazette* along with those of the rail-borne trade. The question as to their being reviewed in detail, &c., has been, as you may be aware, under consideration.

41. The adoption of uniform prices for valution of the traffic interchanged at the Nákas in the different districts, in supersession of the practice which required the Nákedárs to value the commodities every month, has led this year to the apparent anomaly of the quantities being in some cases more and the values less than those for the preceding year. This is also the case in regard to totals. But as actual values are not ascertained in any case, I think that, uniformity in prices is perhaps better than variety therein for each district and for every month, inasmuch as it has done away with the discretion with which the Nákedárs were in this respect invested.

42. With these necessary remarks, I shall briefly review the figures in connection with this trade, unreliable as they are in consequence of the defects inherent in the system.

43. The following table exhibits the total value of the trade transacted during the last four years :—

Nature of Trade.	1881-82.	1882-83.	1883-84.	1884-85.	Figures for 1884-85 compared with those for 1883-84.	
					Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Imports ...	3,11,98,377	2,71,75,160	2,14,34,255	2,10,67,953	...	3,66,302
Exports ...	1,12,87,859	89,30,410	79,24,046	69,77,687	...	9,46,359
Total ...	4,24,86,236	3,61,05,570	2,93,58,301	2,80,45,640	...	13,12,661

Judged from the above table, the total decrease appears to be Rs. 13,12,661, that in the imports being Rs. 3,66,302 and in the exports Rs. 9,46,359. In explanation of the continuous decrease, it may be stated that while in the figures for the three previous years are included those for opium, the imports of which across the Samera post amounted during the years 1881-82, 1882-83 and 1883-84 to Rs. 70,78,550, 24,65,300 and 16,23,880 respectively, no opium was imported at that post in the year under review, the route by which it was carried having been abandoned in favour of another at which no Náka has yet been established.

44. In the following table, comparison of the trade is made with reference to the quantities as registered during the last two years :—

Nature of Trade.	1883-84.	1884-85.	Increase.	Decrease.
	Ind. Mds.	Ind. Mds.	Ind. Mds.	Ind. Mds.
Imports	2,943,213	2,973,198	29,985	.....
Exports	7,49,912	7,90,692	40,780	.....
Total ...	3,693,125	3,763,890	70,765	.....

On the whole, then, though less in value, the traffic has improved in quantity. The improvement is perceptible both in the Imports and Exports though to a very small extent.

The Imports in cotton and wheat show, when compared with the last year, a decrease of 162,052 and 39,911 maunds, that in the former being attributable chiefly to lesser crops caused by unseasonable rains. But this decrease is

counter-balanced by the corresponding increase in grains other than wheat and some other items of minor importance. The increase in the Export Trade is not confined to any particular item.

45. Of the total Imports into the Presidency amounting to 2,973,198 maunds, Sholápur received 35·52 per cent., Ahmednagar 21·01 per cent., Násik 12·51 per cent., Khándesh 8·82 per cent., Panch Mahál 8·21 per cent., Dhárwár 5·86 per cent., Kánara 4·96 per cent, Kaládgi 2·32 per cent., and Mahi Kántha ·79 per cent. These relative shares are summarized in the table below in comparison with the last year's figures :—

Names of the Districts.	1883-84.	Per cent.	1884-85.	Per cent.	Increase.	Decrease.
	Ind. Mds.		Ind. Mds.		Ind. Mds.	Ind. Mds.
Mahi Kántha ...	28,508	·86	23,260	·79	...	5,248
Panch Mahál ...	174,620	5·93	251,012	8·21	76,392	...
Khándesh ...	277,117	9·41	262,258	8·82	...	14,859
Násik ...	400,211	13·62	371,723	12·51	...	28,488
Sholápur ...	1,199,193	40·77	1,056,291	35·52	...	142,902
Ahmednagar ...	507,259	17·25	624,426	21·01	117,167	...
Kaládgi ...	3,380	·14	63,302	2·32	59,922	...
Dhárwár ...	204,377	6·96	173,695	5·86	...	30,682
Kánara ...	148,548	5·06	147,231	4·96	...	1,317
Total ...	2,943,213	100·00	2,973,198	100·00	29,985	...

Besides opium, the trade in which has altogether stopped across the Samera post in Mahi Kántha, decreases are to be found in grains and oil-seeds, while there are small increases in timber and salt. The import of 5,084 maunds of Indian tea across the Samera post appears for the first time. In Panch Mahál wheat and other food-grains show some improvement. There is only a slight decrease in Khándesh and Násik owing to the smaller imports of wheat and other food-grains. The decrease in the case of Sholápur and the increase in the case of Ahmednagar are mainly to be traced to the smaller imports of raw cotton and larger exports of wheat and other food-grains respectively. In Kaládgi the increase is due only to the large imports of stone and lime. The decrease of 30,682 maunds in Dhárwár is perceptible in gram and pulse and undrained sugar, while that in Kánara is of small importance.

46. The quantities of the principal articles of which the Import Trade consisted are compared in the following statement with those for 1883-84 :—

Names of Articles.	1883-84.	1884-85.	Increase or Decrease.
	Ind. Mds.	Ind. Mds.	Ind. Mds.
Cotton	466,369	304,317	−162,052
Wheat	584,470	544,559	−39,911
Other food-grains	484,605	607,666	+123,061
Linseed	482,784	514,435	+31,651
Til or Gingelly seed	109,232	109,556	+324
Other oil-seeds	266,424	278,963	+12,539
Oils	89,341	87,336	−2,005
Provisions	12,499	62,695	+50,196
Spices	20,497	16,268	−4,229
Sugar	197,215	166,466	−30,749
Timber	41,459	33,713	−7,746

Of the total Imports nearly two-thirds consists of cotton, wheat, other food-grains and linseed. Of all the districts, Sholápur and Ahmednagar are the largest importers of cotton. All the cotton imported there is believed to be from the Nizám's dominions. As regards the importation of wheat, Ah-

mednagar stands first; next in importance are Sholápur, Násik, Panch Maháls and Khándesh. Most of the oil-seed is imported into Khándesh and Násik and some into Ahmednagar.

47. The following table represents exports from the Bomby Presidency to neighbouring Territories. They amount in all to 790,692 maunds. Of these 29·94 per cent. was exported from Sholápur, 16·37 from Násik, 12·49 from Dhárwár, 10·14 from Panch Maháls, 10·09 from Khándesh, 9·92 from Ahmednagar, 6·38 from Kánthára, and 4·72 from Mahi Kántha, while there were no exports at all from Kaládgi:—

Names of the Districts.	1883-84.	Per cent.	1884-85.	Per cent.	Increase.	Decrease.
	Ind. Mds.		Ind. Mds.		Ind. Mds.	Ind. Mds.
Mahi Kántha ...	50,454	6·75	37,312	4·72	...	13,142
Panch Maháls ...	78,434	10·56	80,200	10·14	1,766	...
Khándesh ...	57,342	7·64	79,817	10·09	22,475	...
Násik	113,316	15·11	129,505	16·37	16,189	...
Sholápur	210,618	28·08	236,681	29·94	26,063	...
Ahmednagar ...	64,843	8·65	78,454	9·92	13,611	...
Kaládgi	.....	...	.....	...	...	...
Dhárwár	132,033	17·60	98,720	12·49	...	33,313
Kánara	42,872	5·61	50,003	6·33	7,131	...
Total ...	749,912	100·00	790,692	100·00	40,780	...

Except Dhárwár and Mahi Kántha, where the trade shows depression, all the districts appear to have more or less improved. The depression in Mahi Kántha is mainly due to the smaller exports of mowra flowers and that in Dhárwár to those of raw cotton and wheat. The increase in the exports from Khándesh and Sholápur is not confined to any single item, but may be attributed partly to wheat and partly to oil-seeds and sugar in the case of the former and to salt and spices in the case of the latter. The increase in the exports from Násik and Ahmednagar is due to the greater exports of salt, while that in Kánara is not confined to any particular item of importance.

48. The Export trade consisted chiefly of twist and yarn, cotton piece-goods, wheat and other food-grains, iron, mowra flowers, provisions, salt spices, sugar and Tobacco. In the following statement the figures for the last two years are compared:—

Names of Articles.	1883-84.	1884-85.	Increase or Decrease.
	Ind. Mds.	Ind. Mds.	Ind. Mds.
Twist and yarn (European)	14,889	17,204	+ 2,315
Do. do. (Indian)	3,762	4,347	+ 585
Piece-goods (European)	25,464	24,934	— 530
Do. (Indian)	7,634	8,316	+ 682
Wheat	77,844	61,705	— 16,139
Other food-grains	50,519	46,823	— 3,696
Iron	20,239	19,589	— 650
Mowra flowers	46,383	37,691	— 8,692
Provisions	5,272	42,559	+ 37,287
Salt	321,156	318,174	— 2,982
Spices	37,911	33,026	— 4,885
Sugar	27,248	35,357	+ 8,109
Tobacco	29,792	31,080	+ 1,288

Except in twist and yarn, piece-goods Indian, provisions, sugar and tobacco, the trade appears to have generally declined, the decrease in wheat being the most conspicuous. The apparent increase in provisions is owing to the change in classification, this year's figures including those for dried fruits and Nuts

which were previously classified under a separate head. Of the total Exports amounting to 790,692 maunds, those in salt alone are shown to be 318,174 maunds or a little less than half.

49. In the following table are sumarized the Imports and Exports for the last two years with reference to the territories with which they are recorded :—

Names of the Territories.	1883-84.			1884-85.			Increase.	Decrease
	Import.	Export.	Total.	Import.	Export.	Total.		
	I. Mds.	I. Mds.	I. Mds.	I. Mds.	I. Mds.	I. Mds.	I. Mds.	I. Mds
Rájputána and Central India ...	289,491	163,237	452,728	339,753	158,543	498,296	45,568	..
Central Provinces and Berar ...	58,109	17,319	75,428	74,823	32,699	107,522	32,094	...
Nizám's Territory	2,242,688	394,452	2,637,140	2,237,696	450,727	2,688,423	51,283	...
Madras and Mysore ... .:.	352,925	174,905	527,830	320,926	148,723	469,649	...	58,181
Total ...	2,943,213	749,913	3,693,126	2,973,198	790,692	3,763,890	70,764	...

Of the total Import and Export trade amounting to 3,763,890 maunds, 71 per cent. or a little less than three-fourths is due to the Nizám's territory, 13 per cent. to Rájputána and Central India, 13 to Madras and Mysore and 3 to the Central Provinces and Berar. On the whole the traffic shows an improvement over the last year's figures though in the case of Madras and Mysore there is a decrease. A comparison of the figures for the two years shows that the Imports into the Presidency from Foreign Territories were nearly four times larger than its Exports to them.

50. I shall now proceed to make a few general observations on the transactions of each district separately.

Mahi Kántha.—The decrease in the Imports and Exports has already been noticed. The Political Agent, Lieutenant-Colonel A. M. Phillips, reports that the transit duties levied on the routes by the Chiefs remain the same as last year.

Panch Mahál.—The import into this district in the year under review exceeded that of the preceding year by 76,000 maunds in round figures. This for the most part, says the Collector, is due to the extension of the Railway to Godhra where annually increasing quantities of goods are being brought for export to Bombay and other places. No decrease or change in the rates of transit duties levied in the Native States of Central India has been brought to notice.

Khándesh.—Among the reports received from the District officers, the one from the Collector of Khándesh is specially interesting. With the exception of the Imports and Exports at Ráver, the Exports at Palasner, Wakad and Outramghát and the Imports at Edalabad and Jamti, the trade appears to have fallen off. Regarding the causes of increase and decrease, Mr. R. A. L. Moore, Assistant Collector in charge of the Edalabad, Wakad, Ráver, and Jamti Nákas, says as follows :—

> "The cause of increase in the Import and Export at the Ráver Náka are stated to be that the yearly fair at Singáji in Nemar was held in the year under report, while in the year preceding it was not held. Besides this, in consequence of Singhastha fair at Násik, much goods were imported and exported.
>
> "The causes of diminished export and import at the Edalabad and Wakad Nákas are that owing to the last year's crops having suffered by the excessive fall of rain, gram, &c. did not come in and was not sent out to the same extent as in the preceding year.
>
> "The cause of increased import of Jamti Náka is that on account of excessive fall of rain the crops were injured to some extent and consequently grain was brought in by merchants from Berar and the Nizám's territory."

The purport of the report of Mr. G. D. Panse, Assistant Collector in charge Palasner Náka, is that in his opinion the traffic is not correctly registered, that there must be proper check and supervision on the Nákedárs, and that their returns are scarcely to be relied upon as they are neither trained in the work nor experienced in mercantile affairs.

Násik.—The Collector of Násik reports that there has been no change in the transit duties. The Nizám's Government levy Customs duties on all articles except bhuimug, methi, rájgira and Ambadi.

Sholápur.—The Collector of Sholápur reports that a revised octroi schedule by which the rates on the staple articles of trade were reduced by from 25 to 50 per cent., was introduced in Sholápur on the 1st May 1884. There has been no change in transit duties levied by the Native States on the frontiers.

Dhárwár.—The Collector of Dhárwár says as follows, in his report, dated 19th June 1885:—

"The opening of the Gadag-Bellary Railway from 1st proximo will seriously affect the trade of Mundargi which is on the road between these towns. The Railway statistics will be much more reliable and I am of opinion that it is no use keeping the Náka at Mundargi any longer."

51. In concluding this report, I beg to express a hope that Government is satisfied with the manner in which the work is being carried out, considering the small and poorly-paid staff which the funds placed at my disposal allow me to engage.

I have the honour to be,

Sir,

Your most obedient Servant,

J. PARTRIDGE,

Officiating Examiner of Guaranteed Railway Accounts.

Bombay, 6th August 1885.

LIST OF APPENDICES.

RAIL-BORNE TRADE.

A.—Table of percentage deductions from gross weights of Rail-borne Trade to obtain net weights, and also of prices furnished by the Commissioner of Customs, Salt, Opium and A'bkári, Bombay, for valuation of Rail-borne Trade for the years 1883-84 and 1884-85.

B.—Statement showing the total Rail-borne Imports and Exports of the Bombay Presidency during the year ending 31st March 1885 compared with the Imports and Exports of the preceding year.

C.—Statement showing Trade by Rail between the different Blocks of the Bombay Presidency and the different other Provinces during the year ending 31st March 1885.

D.—Statement showing Trade by Rail between the different Blocks of the Bombay Presidency during the year ending 31st March 1885.

ROAD-BORNE TRADE.

E.—Statement showing the total quantity and value of Imports of each District during the year 1884-85.

F.—Statement showing the total quantity and value of Exports of each District during the year 1884-85.

G.—Statement showing the total quantity of Imports of the Road-traffic across each Post during the year 1884-85.

H.—Statement showing the total quantity of Exports of the Road-traffic across each Post during the year 1884-85.

I.—Statement showing details of expenditure incurred in connection with the Registration of Road and Rail-borne Trade from 1st April 1884 to 31st March 1885.

MISCELLANEOUS.

K.—Statement showing the Area under *Cotton* cultivation in the different Collectorates of the Bombay Presidency from the year 1868-69 to 1883-84.

L.—Statement showing the Area under *Wheat* cultivation in the different Collectorates of the Bombay Presidency from the year 1871-72 to 1883-84.

M.—Statement showing the area under cultivation in *Oil-seeds* in the different Collectorates of the Bombay Presidency from the year 1871-72 to 1883-84.

N.—Statement showing the Average Acre Yield in Lbs. of different articles in the Districts of the Bombay Presidency, received with letter No. 1,002 of 25th July 1885, from the Director of Agriculture, Bombay, to the Examiner of Railway Accounts, Bombay.

A.

Table of Percentage Deduction from Gross Weights of Rail-borne Trade to obtain Net Weights, and also of Prices furnished by the Commissioner of Customs, Salt, Opium and Abkári, Bombay, for valuation of Rail-borne Trade for the years 1883-84 and 1884-85.

(Signed) E. C. OZANNE,
Director of Agriculture, Bombay.

No. 1501 OF 1885.

Poona, 28th September 1885.

MEMORANDUM.

This Report reached me on the 25th instant. Proofs were, however, obtained from the Examiner of Guaranteed Railway Accounts to enable me to prepare my remarks in advance.*

2. The system of registration by blocks adopted in 1882 continued in force during the year under report. A few minor changes as regards the classification of articles and the forms in which statistics are compiled were made. A new block under the name of the Southern Marátha Railway, a portion of which was opened for traffic in August 1884, was added.

Paras. 2—6.

3. The amalgamation of the trade returns of the two lines of Railways (the B. B. & C. I. and the G. I. P. which run north and east of the Presidency) under orders from the Government of India has reduced the bulk of the report, but important and useful statistics as regards the course of external trade by these two lines separately are in consequence not available. It is certain that a similar amalgamation of the returns from the East and West Deccan Railways will be made when the latter line is opened. I would suggest that, as regards certain specially important articles, the Quarterly Returns of Rail-borne Traffic and perhaps the Annual Report should show the details separately in a simple statement for each station on each railway line. A form is annexed showing the plan suggested. In compiling the Block returns the figures of each station must necessarily be worked up, and it will give very little, if any, extra work and will add very little to the bulk of the returns if the intermediate statement is published for information. Such a statement will be of much practical use for local administrative purposes for which the final figures as now shown are of no assistance.

Para. 7.

The valuation of the articles of trade is made from the prices of merchandize imported into and exported from Bombay by sea. The present method of making the valuation is unsatisfactory. It would be an advantage if the valuation were based on the prices ruling at the principal towns of each block from which the articles were exported.

Paras. 8—10.

4. The entire rail-borne trade for the Presidency during the year was 63 million against 59 million maunds in the preceding year and was valued at 47 crores against 44 crores in 1883-84. The trade thus shows an increase of 7 per cent. in weight and 6 per cent. in value. The increase is believed by the Examiner to have been caused (1) by greater activity in the trade with foreign countries, (2) by the expected outbreak of hostilities on the North-Western Frontier, (3) by the warlike operations between France and China, and (4) by the fear of the occurrence of famine or scarcity in certain parts of India.

Paras. 11—14.

5. As the Examiner has not shown precisely the figures on which he based this belief, it is necessary to examine carefully how far support is given by the returns to each alleged factor of the increase.

I.—ACTIVITY OF TRADE WITH FOREIGN COUNTRIES.

It appears that there was an increase in the import into Bombay of wheat

* Government Resolution No. 2220, dated 16th March 1885, para. 1.

and oil-seeds so large as to more than counterbalance the decrease in cotton. These three are the principal articles exported from Bombay to foreign countries, and from the net increase of 8·24 per cent. greater activity in trade with foreign countries may be fairly inferred. The details are :—

Year.	Imports into Bombay for Foreign Shipment.			
	Cotton.	Wheat.	Oil-seeds.	Total.
	Mds.	Mds.	Mds.	Mds.
1883-84 ...	5,009,514	12,129,291	9,895,868	27,034,673
1884-85 ...	4,438,193	13,386,411	11,437,931	29,262,535
Increase ...	.....	1,257,120	1,542,063	2,227,862
Decrease ...	571,321	.....	.....	.....

II.—The expected outbreak of hostilities on the North-West Frontier.

No increase appears to be due to the expected out-break of hostilities on the North-West Frontier. The Panjáb is the Province the trade of which is mainly liable to be disturbed by a frontier war. Instead of showing any increase, the trade of the Bombay Presidency with the Panjáb shows in 1884-85 a decrease of 2¼ lákhs maunds or 10 per cent. under imports and of 4½ lákhs maunds or 45 per cent. under exports. Moreover, any effect of expected hostilities on the Afghán Frontier would be shown rather by the figures of the Sind Block, but as this is considered an external block, no deduction is available.

III.—War between France and China.

As far as I have been able to ascertain the Franco-Chinese war does not seem to have increased the trade of the Presidency. The two leading exports from Bombay to China are opium and cotton twist and yarn. The imports of opium into Bombay amounted to :—

Whence Imported.	1883-84.	1884-85.
	Mds.	Mds.
1. Central India and Rajputána...	61,070	75,801
2. Central Provinces	4,249	1,886
3. Gujarát and Káthiáwár ...	6,190	670
4. Other parts	86	83
Total ...	71,595	78,440

The bulk of opium received in Bombay is from Málwa in Central India. Though the imports from the Central Provinces, Gujarát, and Káthiáwár have fallen off, those from Málwa have decidedly increased. The exports of opium from Bombay to China during the 12 months ending March 1885 show an increase of 440 chests or 770 maunds over that for the same period last year. This increase was chiefly due, according to the Commercial Reports by Her Majesty's Consul in China for 1884, to the failure of the Persian crop which with the native drug competes with Málwa opium in China. Both the Persian and the native drug are ranked inferior to the Málwa opium.

But when neither the Persian nor the native drug is obtainable on account of scarcity or high rates China falls back on Málwa. The increase I think is therefore not due to the cause alleged by the Examiner.

The imports of cotton yarn and twist into Bombay amounted to :—

Whence imported.	1883-84.	1884-85.
	Mds.	Mds.
Central Provinces	2,146	4,512
Gujarát and Káthiáwár	51,755	66,754
South Narbada and below Ghâts ...	4,982	12,490
Poona and Sholápur	2,827	1,683
Other Internal and External Blocks ...	295	1,452
Total ...	62,005	86,891

The cotton twist and yarn imported into Bombay from the up-country spinning and weaving mills is intended for the China market. In the absence of statistics to show the export of this article from Bombay to China, I cannot say how far the trade has increased and how far this increase, if any, was due to the war between France and China. But it is an admitted fact that production in the Indian mills runs far ahead of demand and in some cases shipments were forced though the prices realized in China were below the actual cost. It is possible that the increase in the export of Indian cotton twist and yarn may be due to this overproduction rather than to the war.

IV.—Fear of Famine or Scarcity.

No increase in the trade appears to be due to fear of famine or scarcity. During the first three months of 1884 the rainfall was deficient in parts of Bengal, North-West Provinces and Oudh, and Madras, Mysore and Coorg. In a season of drought food-grains are in demand. The total quantity of food-grains exported from the Bombay Presidency to the other Provinces amounted in 1884-85 to one lákh against ¾ lákh in 1883-84, that is an increase of only ¼ lákh of maunds. Of this increase about 18,000 maunds represent the exports of wheat from Bombay to Deccan Hyderabad and about 5,000 maunds the export of gram from Bombay to Madras. In Hyderabad the rainfall was seasonable and there was no scarcity; therefore the increase in the export of wheat to Hyderabad was not due to scarcity. In parts of Madras there *was* a failure of rain. But gram is not the food-grain that could have been in much demand there to supplement a deficiency of local supplies of food. These two articles together fully account for the increase which cannot therefore be attributed to scarcity, anticipated or actual.

Paras. 15 and 16.

6. The trade of the Presidency with other Provinces was—

Year.	Imports.	Exports.
	Mds.	Mds.
1883-84 ...	253 lákhs	76½ lákhs
1884-85 ...	281 lákhs	76¾ lákhs

In 1884-85 Bombay received 87 per cent. of the total imports and sent 59 per cent. of the total exports to other parts of India.

The leading imports are—

Opium.—77,721 maunds. Almost the whole of it received in Bombay from Rajputána and Central India.

Cotton, Raw.—17¾ lákhs maunds. Almost the whole of it was received in Bombay. Nearly three-fourths of the Bombay imports were from Berár, Rajputána and Central India.

Food-grains.—149 lákhs maunds. Most of this (136 lákhs maunds) was received in Bombay. Among food-grains wheat shows 118 lákhs maunds chiefly from the Central Provinces.

Oil-seeds.—85 lákhs maunds. Most of this (84 lákhs maunds) was received in Bombay. The import of linseed is nearly half of the total import of seeds. Nearly half of linseed was received from the Central Provinces.

7. The chief article of export worthy of notice is :—

Tobacco—	Maunds.	Rs.
1883-84	174,280	1,19,49,979
1884-85	192,369	21,43,111

The exports in 1884-85 show an increase of 18,089 maunds in quantity and a decrease of Rs. 98 lákhs in value, which the Examiner attributes to the fall in prices. As far as I can ascertain the valuation has been incorrectly made by comparing the price (Rs. 11-2-3 per maund) for Indian tobacco in 1884-85 with that of the European tobacco (Rs. 68-9-1) in 1883-84. The figures furnished to me by the Customs Department show that the average price of the Indian tobacco in 1883-84 and 1884-85 was the same, viz. Rs. 10 per Bengal maund. The bulk of the tobacco exports are from Gujarát and Káthiáwár (189,078 maunds). Rajputána and Central India consume 173,990 maunds of the tobacco exported from Gujarát and Káthiáwár. A part of it (14,794 maunds) was sent to the Central Provinces.

8. From the Quarterly Statements showing the extent of trade of the important articles it appears that the traffic transacted from January to June is greater than that from July to December, and that most of the traffic in such of the agricultural products as cotton, wheat, oil-seeds—the three leading exports of this Presidency—is dealt with in the quarter ending 30th June. It is therefore clear that the Trade Report for the financial year does not deal with a year's produce, for a great part of the transactions connected with any one year's harvest is perforce shown in the next year's report which is very unsatisfactory. For the very strong reasons* adduced by the Commissioner of the Hyderabad Assigned Districts in paragraph 50 of his Trade Report for 1883-84, which I reproduce in the margin, I would recommend that the year should be altered so as to end with the 30th of June.

Paras. 17—18.

*50. "Before closing this report I wish to draw attention to the inappropriateness (as it seems to me) of the period for which the statistics for this report are compiled.

The trade of the province, as has been pointed out before, being altogether in agricultural produce, is principally and intimately dependent upon the harvests of the year, and consequently in reporting on the year's trading operations a period ought obviously to be selected which would as nearly as possible cover the transactions connected with the year's harvests.

In selecting the financial year ending with the 31st March for this report, little attention appears to me to have been paid to these important considerations.

By the 31st March scarcely a single product of the year's harvest has been completely disposed of. The cotton-trading season continues till June, and wheat and linseed are only just harvested and beginning to appear in the market. Consequently, as has been already mentioned in paragraphs 31, 32, 33 foregoing, the report deals in regard to cotton with part of the produce of two seasons, and in regard to wheat and linseed almost exclusively with the produce of the year preceding that under report."

9. The internal trade shows an increase of 5 per cent. in quantity and 16 per cent. in value. The following are the chief articles arranged in order of quantity :—

Paras. 19—23.

Coal.—42 lákhs maunds, chiefly exported from Bombay for the use of mills, factories and Railway companies up-country.

Food-grains.—36 lákhs maunds : of these 22 lákhs maunds represent imports into Bombay. Of the food-grains 22 lákhs maunds are wheat chiefly imported into Bombay from the Khándesh, Ahmadnagar and Násik and from the Gujarát and Káthiáwár Blocks.

Oil-seeds.—32 lákhs maunds, chiefly imported into Bombay from the Khándesh, Ahmadnagar and Násik Block, from the Gujarát and Káthiáwár Block and from the Poona and Sholápur Block.

Tobacco.—162,418 maunds, mostly (138,187 maunds) exported from Gujarát and Káthiáwár and chiefly imported into Bombay.

10. The Examiner has in paragraph 26 drawn, albeit hesitatingly, certain deductions from the statistics of acreage under the principal crops and of their total produce calculated on the basis of certain formulæ prepared by Government. His deductions may be briefly summarised as follows :—

Paras. 24—26.

(1). The produce of food-grains is barely sufficient for the support of the population of the Presidency.

(2). The hand-loom weavers do not suffer much by the competition of the European and Indian mills because a large quantity of raw cotton is retained for home use.

(3). Only eleven per cent. of total yield of wheat is exported, though wheat is not a staple article of food.

11. I am of opinion that it is most unsafe to draw general deductions from imperfect and untrustworthy statistics. The work of recording the area under different crops requires minute examination of each field and crop. The existing village and district staff of the Revenue Department is untrained and overworked and therefore as admitted by all Revenue officers the registration of crop statistics is done in an imperfect manner. So universal is this opinion that strenuous exertions are now in progress for the improvement of the agency which supervises the registration.

12. The Examiner's deductions are also based on incorrect data. The following are the chief reasons which compel me to make this assertion.

A.—Food-supply of the People.

(1). In making the calculation no notice has been taken of the coarser grains such as nágli, vari and harik, the staple articles of food of the hill tribes and the poorer classes of the plains in some districts and the cultivation of which extended in 1883-84 over 2¼ million acres or 17 per cent. of the whole area under cereals. In the same manner all pulses except gram have been omitted from calculation. Their cultivation extended over nearly one million acres in 1883-84.

(2). The total produce of food-grains—juvár, bájri, rice, wheat and gram—is given for the British districts of the Bombay Presidency excluding Sind. While for the purposes of calculation the population of Sind (2,413,823) or 14 per cent. of the total population is taken into account.

(3). The total yield of crops (column 4 of the table at page 8) refers to British districts only, while the quantity carried by rail among internal blocks and to other provinces (column 5) include, as in the case of the Káthiáwár Block, the produce of Native States.

(4). In making the calculation no notice has been taken of the extent of road traffic.

(5). The lands of the Native States (including Baroda) covering an area of 82,323 square miles or 39 per cent. of the total area (206,445 square miles) of the Presidency, are so interspersed with those of the neighbouring British districts that deductions as regards consumption of food-grains are impracticable, unless information from Native States is obtained and worked up.

(6). The quantity carried by rail (column 5) refers to a particular year, *viz.* 1884-85, while the total yield (column 4) refers generally to a season so favourable as to yield a 12-anna crop. The two figures cannot therefore be compared unless it is ascertained that the crop of which the outturn is given was in all cases a 12-anna one.

13. Besides the important omissions and defects in the calculations noticed above, another point as regards the method of calculating outturn

deserves notice. At the request of the Examiner a return showing the acre-yield of certain crops in each district, calculated on the basis of the táluka formulæ, was supplied from my office. To make a fair approximation of the outturn of a particular crop the method adopted in the report is wrong. The Examiner appears to have struck an average from the formulæ figures for each district and to have multiplied the gross acreage by the resultant figure. It must be admitted fully that in the return submitted by me this average was struck, and apparently the Examiner was misled. The more correct method would have been that of multiplying the number of acres of each district by the average figure for that district. The following statement shows the difference between the two methods of calculations :—

Articles.	Yield as calculated by the Examiner.	Yield as calculated by the Director.	Increase. Per cent.	Decrease. Per cent.
	Mds.	Mds.		
Cotton ...	13,665,556	11,835,449	...	13·39
Wheat ...	20,709,850	25,768,123	24·42	...
Jowár ...	77,211,166	81,576,123	5·65	...
Bájri ...	34,766,109	33,745,675	...	2·93
Rice ...	29,105,158	29,315,480	0·72	...
Gram ...	8,030,732	8,113,589	1·03	...
Linseed ...	1,244,369	1,213,837	...	2·45
Til-seed ...	2,138,422	2,181,170	1·99	...
Sugar, raw...	4,362,000	4,697,925	7·70	...
Tobacco ...	1,695,120	2,109,943	24·47	...

B.—Hand-loom Weavers.

14. A fatal mistake appears to have been made in calculating the export of cotton. The acre yield of cotton as given in the formulæ refers to seed-cotton and not to cleaned cotton. Cotton is never exported without being ginned either by steam machinery or by the hand-worked *charak*. The proportion of seed-cotton to clean cotton is 3 to 1. The total yield (13½ million maunds) refers to seed-cotton; while the total export (nearly 3 million maunds) undoubtedly to clean cotton. When converted into clean cotton the yield figure would be reduced to 4½ million maunds, out of which nearly 3 million maunds or 61 per cent., and not 21 per cent. as stated in the report, were exported, leaving only 39 per cent. and not 79 per cent. for local consumption. This is also on the supposition that the crop was an average or a 12-anna one in 1884-85 in all the districts of the Presidency. This was not the case. Owing to unseasonable rainfall the cotton crop for 1884-85 was far below the average in all the districts of the Presidency proper, and in some districts it was almost a failure. In Kaládgi for instance, where the area under cotton was 270,820 acres, the crop was a one-anna one. If the failure of the cotton crop in 1884-85 is taken into account, the amount reserved for local consumption will, according to the Examiner's calculation, bear a very small percentage. That the hand-loom weavers in the mofussil have suffered and do suffer terribly owing to the hard competition with the spinning and weaving mills in India and the United Kingdom is a well-known fact. During the famine of 1876 in most of the British districts they were among the first to succumb to the calamity, and in some districts special measures were adopted to alleviate their sufferings.* Nothing has happened in the interval which could have wrought a miraculous change in their wretched condition.

**Vide* Hon'ble Mr. Peile's Summary for the Famine Commission, pages 115, 121, 126, 129, 136, 139, 140, and Bombay Gazetteer, Vols. XVI, p. 111; XXI, p. 347, XXII, p. 315, 377; XXIII. p. 332, 370-372.

C.—Export of Wheat.

15. It may be remarked that wheat is the staple article of food among most of the higher classes of the people in this Presidency. In Gujarát, where the area under wheat in 1883-84 was 3½ lákhs acres, wheat is so largely consumed, even by poor classes, on occasions of caste dinners, which are in many cases

compulsory, that the supply of wheat required for home consumption falls occasionally short. The number of persons fed at each time varies from 100 to 5,000. Accepting the Examiner's calculation, the export of 11 per cent. is not surprising.

16. It would appear from the table that the export of linseed (16 lákhs maunds, col. 5) was greater than the total production (12 lákhs maunds, col. 4). This anomaly is not real. It can be easily explained by the fact that the yield of the linseed grown in Native States has not been taken into account by the Examiner. Column 5 gives the export carried by the railways within the lands of British Government and Native States, whereas col. 4 gives the yield of the area under linseed in the British districts only.

17. The remarks as regards the cost of food grains per head of population are, for the reasons stated in paragraph 12 above, not justifiable.

Para. 27.

The Examiner is surprised to find about 2 crores spent on tobacco alone by a people whom he believes to be restrained from its use by strong religious influences. The use of tobacco, be it for smoking or chewing or for snuff, is not interdicted by any religious system of the country. Pársis only are forbidden by their religion to smoke tobacco though they may chew it or use it in the form of snuff. By the Examiner's calculations the expenditure on tobacco is about one rupee per head of population. But the population is that of the British districts only, while a large proportion of the tobacco grown in these districts is consumed by the Native States of the internal blocks. A certain amount is also exported. It must moreover be remembered with reference to the Examiner's deduction that tobacco in some form or other is freely used by all classes of the people, women and children included, and that it is hardly ever to be classed among luxuries.

18. The acreage under cotton, wheat and oil-seeds, the three chief articles of export to Europe, has largely increased during the last 16 years, *viz.*, the increase is nearly 12 lákhs acres in the case of cotton, 10 lákhs in the case of wheat, and 6 lákhs in the case of oil-seeds. It is satisfactory to note that the increase in area under these crops of export does not in any way trench upon the food resources of the Presidency as shown in my letter No. 929, dated 13th July 1885, (paras. 6—8) to Government.

Paras. 28—31.

The deduction made in paragraph 30 that the extent of these three exportable crops in the Khándesh district proves that Khándesh is the richest of all must be taken with reservation. One fact is not sufficiently brought into prominence, *viz.* that Khándesh is more than double the size of any other district.

19. The Examiner's suggestion of ascertaining the proportions of the different castes and communities engaged in the rail-borne trade from the invoices by limiting, for the present, the scope of enquiries to selected stations is not only impracticable but will not gain the desired object. The number of Hindu castes and sub-castes is so great that it will not be possible to ascertain the caste from the names in the invoices, unless the caste of the consignee and consigner is noted in the invoice and compiled for the general return—a work of immense labour without equal corresponding advantage. Even if it is arranged to compile caste details, the results obtained from the Railway invoices will not at all be satisfactory as only the names of the consigner and consignee will appear in the invoices. A large class of people—servants, agents and clerks and labourers—engaged in the rail-borne trade will find no place in the return.

Para. 32.

20. The difficulty of obtaining trustworthy and complete statistics relating to Native States the lands of which are interspersed with those of British territory is so great, and the existing revenue staff of the British districts is so overworked, that it is not possible at present to attempt to collect information on the points mentioned in para. 33.

Para. 33.

21. The total annual cost on account of registration of traffic amounted to Rs. 14,826, of which Rs. 3,852 were for rail and Rs. 10,973 for road traffic. I would invite the attention of Government to the Joint Report* submitted by the Examiner of Guaranteed Railway Accounts and by myself, dated 4th January 1885, in which the inefficiency of the present system of collecting the returns of road-borne traffic was explained at some length. A majority of the Revenue officers proposed the discontinuance of the registration of road traffic on the ground that it is carried on in an imperfect and untrustworthy manner. Government, while endorsing the general opinion regarding the untrustworthiness of the information collected by illiterate and unsupervised Nákedárs, has decided to continue these returns because they are required by the Government of India†. At the present juncture when retrenchment in expenditure is enjoined by the Government of India, I beg to submit for the serious consideration of Government the question as to whether the large expenditure of Rs. 10,000 per annum cannot be saved, considering the fact that the information regarding road traffic is not in any way useful.

Paras. 34—40.

*Government Resolution No. 2220, dated 16th March 1885.

†Government Resolution No. 9158, dated 18th November 1884 and Government Resolution No. 2220, dated 16th March 1885.

The necessity of re-organizing the existing staff of the registration clerks was dwelt upon in the Joint Report above referred to, and nothing can be done at present till the Circle Inspector establishment is extended to the whole Presidency. The proposal that moveable scales be given to registration clerks is, for obvious reasons, not workable.

22. The existing system of valuing articles in the Road Traffic Returns may be continued so that the figures, however incorrect they may be, can be compared.

Para. 41.

23. The total road-borne trade of the Presidency amounted to 37¾ lákhs maunds, of which 29¾ lákhs were imports and 8 lákhs were exports. Sholápur is the great outlet and inlet through which much of this trade passes to the countries in the interior. Of the total imports nearly ⅔ consists of cotton mostly from the Nizám's dominions, wheat, other food-grains and linseed. The export trade consisted chiefly of twist and yarn, cotton piece-goods, food-grains and sundries. Of the total import and export trade 71 per cent. or a little less than ¾ belong to the Nizám's territory, 13 per cent. to Rájputána and Central India, 13 per cent. to Madras and Mysore and 3 per cent. to the Central Provinces and Berár. On the whole the traffic shows an improvement over the last year's figures, though in the case of Madras and Mysore there is a decrease. A comparison of the figures for the two years shows that the imports into the Presidency from external blocks were nearly four times as large as its exports to them.

Paras. 42—49.

24. The extracts made from the district officers' reports show that there has been no change in the levy of transit duties by Native States, and that the road traffic statistics are compiled in an imperfect manner. The question of the transit duties levied by Native States deserves the consideration of Government.

Paras. 50 and 51.

25. The Examiner of Guaranteed Railway Accounts does not appear to have prepared the statement of the roads of which the traffic has been tested, referred to in paragraph 5 of the Government of India's Circular No. $\frac{69}{119}$ dated 16th May 1885.

26. In conclusion, I may remark that the Examiner has taken special pains to prepare the report, but the value and usefulness of the report have been lessened by what appears to me a hazardous attempt to generalize the results from imperfect data.

It is this attempt which has necessitated such lengthy remarks from me.

E. C. OZANNE,
Director of Agriculture.

Trade Returns: Report on the External Land Trade and the Rail-borne Trade of the Bombay Presidency, exclusive of Sind, for the official year 1884-85.

No. 8704.

REVENUE DEPARTMENT.

Bombay Castle, 27th October 1885.

Memorandum from the Director of Agriculture, No. 1501, dated 28th September 1885—Submitting, with his remarks, a letter No. L.T.—151, dated 6th August 1885, from the Examiner of Guaranteed Railway Accounts, who forwards with his comments thereon the report on the External Land Trade and Rail-borne Trade of the Bombay Presidency, exclusive of Sind, for the official year 1884-85.

RESOLUTION.—It has not been the practice for Government to review the report on the External Land Trade and Rail-borne Trade, and it does not appear to be necessary. The Director of Agriculture, however, having found that the report for 1884-85 contains generalizations on imperfect data, has suggested that Government should peruse it before it is published.

2. Most of Mr. Ozanne's comments on the general statements made in the report seem to be well founded. No reason is assigned for the belief that the expected outbreak of hostilities on the North-Western Frontier and the war between France and China caused an increase in trade, and the natural result would apparently have been the opposite. The Examiner of Guaranteed Railway Accounts has gone beyond his province in drawing inferences from the returns of the yield of different crops, which have been recognized to be so inaccurate that no general conclusion can safely be based upon them.

3. The Examiner should be informed that it would be preferable if he confined his remarks to the elucidation of the figures tabulated by him and to a statement of the general results shown by them.

4. Orders will be separately passed on the proposals of the Director of Agriculture regarding a change in the period to which the report relates, the preparation of a special return to show the traffic of each railway station separately, and the necessity of reducing the road traffic establishment.

J. MONTEATH,
Under Secretary to Government.

To

The Director of Agriculture,
The Commissioner of Customs, Salt, Opium and A'bkári,
The Examiner of Guaranteed Railway Accounts,
The Public Works Department of the Secretariat (Railway).

No. L.T. of 1886-87.
156

From

F. MORRISON, Esq.,
Officiating Examiner of Guaranteed Railway Accounts, Bombay;

To

E. C. OZANNE, Esq., C.S.,
Director of Agriculture, Bombay.

Bombay, 18th August 1886.

Sir,

As arranged in Bombay Government Resolution No. 2220 of 16th March 1885, Revenue Department, I have the honor to forward herewith, for submission to Government, the returns of rail and road-borne trade of the Bombay Presidency for the official year ending 31st March 1886, together with my comments thereon.

Rail-borne Trade.

Changes.

2. There has been no change during the year in the headings of articles under which traffic has been registered for the last two years, but the following alterations have been made in the limits of some of the external and internal blocks of this Presidency; the stations from Jatwár to Amdára on the Jabalpore branch (East India Railway) formerly regarded as one of the sections of the Central Provinces, have been added to the block Rájputána and Central India; the block "Calcutta Port" has been included in "Bengal"; the "Madras Presidency" has been sub-divided into "Madras" and "Mysore," and the limit of "Poona and Sholápur," one of the internal blocks of the Presidency on the south-eastern section of the G. I. P. Railway line, has been removed from Hudgi to Dudni. The limit of the Nizám's territory has also been changed from Tungabhadra to Matmári.

Valuations.

3. As heretofore, the prices have been furnished by the Commissioner of Customs, Salt, Opium and A'bkári, except for the articles noted below, which have been valued according to the price list furnished by the Commissioner, Hyderabad Assigned Districts, as applicable to the trade in those districts:—

1 Drugs and Chemicals
(1) Intoxicating, other than Opium.
(2) Non-intoxicating.
2 Paper and pasteboard.
3 Railway plant and rolling stock.

4. The entire trade of the Presidency is contrasted in the table below with that of the two previous years:—

Description of Trade.	Quantity in Maunds.			Value in Rupees.		
	1883-84.	1884-85.	1885-86.	1883-84.	1884-85.	1885-86.
(1) Imports from External Blocks	25,325,449	28,088,168	30,843,195	18,29,80,450	19,02,15,133	20,34,40,347
(2) Exports to do. do.	7,661,331	7,674,546	9,965,038	7,95,96,589	7,01,09,221	8,25,85,492
(3) Internal or Local Trade ...	26,137,552	27,515,582	28,043,954	18,01,22,146	20,93,37,730	18,32,94,556
Total ...	59,124,332	63,278,296	68,852,187	44,26,99,185	46,96,62,084	46,93,20,395

13475

The total shows an increase of 5,573,891 maunds, over that of the preceding year.

The increase in the import trade is 2,755,027 maunds, or 9·8 per cent. in volume and Rs. 1,32,25,214 in value; and that in the export trade 2,290,492 maunds, or 29·8 per cent. and Rs. 1,24,76,271 in value.

In the internal trade the increase in weight amounts to 528,372 maunds or 1·9 per cent., but a decrease of Rs. 2,60,43,174 is observable in its value, the latter being apparently due to the smaller imports of drugs intoxicating other than opium, the trade value of which was the same for both years.

Imports from External Blocks.

5. The imports of some of the principal commodities into the Bombay Presidency from the external blocks are shown below :—

Articles.	Quantity in Maunds.		Value in Rupees.	
	1884-85.	1885-86.	1884-85.	1885-86.
Coal	687,260	888,614	4,15,219	5,36,871
Cotton, raw	1,774,502	2,331,210	3,17,19,223	4,56,52,862
Cotton piece-goods, Indian ...	28,161	31,028	10,42,396	11,49,166
Wheat	11,807,779	13,636,728	3,73,91,300	3,80,69,199
Rice	896,551	1,003,684	28,06,391	34,91,984
Jowár and bájra	1,000,824	962,836	21,42,388	15,39,535
Other grains	1,267,001	1,737,296	31,64,129	43,04,215
Hides and skins	116,235	101,535	51,48,726	31,88,808
Linseed	4,953,751	4,889,551	1,97,89,203	2,05,76,860
Mustard and rape	1,309,271	1,489,441	69,55,502	70,20,542
Til or gingelly	1,909,865	1,131,091	98,47,741	61,09,069
Other oil-seeds	390,921	441,387	15,92,986	18,55,870
Ghee	92,066	106,502	27,61,980	33,20,422
Tea, Indian	1,675	2,754	1,31,365	1,76,428
Tobacco	8,448	13,897	94,116	1,30,574

Coal.—Increase of more than 200,000 maunds in quantity and of over Rs. 1 lákh in value is due probably to the larger imports of coal into the internal block, Khándesh, Násik and Ahmednagar, from the Central Provinces.

Cotton, raw.—The imports of cotton raw have considerably improved, being about 550,000 maunds in quantity and Rs. 100 lákhs in value more than in the previous year. The whole of this increased quantity has been absorbed by the Bombay Port block, and the following table shows in lákhs of maunds the proportions contributed by the several external blocks :—

	Punjab.	Rájputána and Central India.	N.-W. P. and Oudh.	Central Provinces.	Berár.	Madras.	Nizám's Territory.
1884-85	0·8	4·5	2·5	0·2	8·0	0·5	1·0
1885-86	0·8	5·0	4·0	0·8	12·2	0·9	0·2

It will be observed that, with the exception of Madras and the Nizám's territory, the imports of cotton as exhibited above show a considerable increase, especially those from Berár.

Cotton Piece-goods, Indian.—The increase in quantity amounts to about 3,000 maunds. The imports in Khándesh, Násik and Ahmednagar are the largest, and those in the Bombay Port, and Poona and Sholápur blocks are next in importance. The imports from the N.-W.P. and Oudh amounted to 16,000 maunds as against 15,000 maunds in the preceding year.

Wheat.—A striking improvement is noticed this year in the imports of wheat, which amount to 13,636,000 maunds as against 11,807,000 maunds.

Nearly the whole of this has been conveyed to the Bombay Port; the remaining blocks have conjointly absorbed about 61,000 maunds. The total imports exceed those of the years 1883-84 and 1884-85 by about 32 and 18 lákhs maunds respectively, and are thus the largest on the record during the past three years. The external blocks Punjab, Rájputána and Central India, N.-W.P. and Oudh, the Central Provinces and Berár have severally contributed to the aggregate imports about 18, 16, 20, 69, and 12 lákhs maunds. The following table shows briefly how the trade in this article has expanded :—

External Blocks.	1883-84.	1884-85.	1885-86.
	Maunds.	Maunds.	Maunds.
Punjab	1,402,295	593,097	1,836,309
Rájputána and Central India	342,792	690,099	1,601,764
N.-W.P. and Oudh	590,956	259,972	2,070,593
Central Provinces	7,480,278	9,726,046	6,933,628
Berár	627,691	535,515	1,191,598
Nizám's Territory	24,981	3,050	2,834
Total ...	10,468,993	11,807,779	13,636,726

Rice.—The increase in the imports of rice amounts to one lákh maunds, of which $\frac{3}{4}$ is due to the imports from the N.-W.P. and Oudh and $\frac{1}{4}$ to those from the Central Provinces.

Jowár and Bájra.—The imports under this head have somewhat declined, especially those from the N.W.P. and Oudh, where there has been a falling off of $2\frac{1}{4}$ lákhs maunds. Those from the Punjab, Rájputána and Central India, and the Nizám's territory have largely increased.

Other Food-grains including Gram.—The aggregate increase in the joint imports of the two heads is over 4 lákhs of maunds, and is detailed below for the last two years with reference to internal blocks in lákhs of maunds :—

	Bombay Port.	Gujarát and Káthiáwár.	South of Narbada and below the Ghats.	Khándesh Násik and Ahmednagar.	Poona and Sholápur.	Southern Marátha Railway.
1884-85	10·1	0·7	0·3	0·6	0·7	0·03
1885-86	14·2	1·2	0·4	1·0	0·2	0·07

It will be observed that the increase shown above is principally in the imports in the Bombay Port, Gujarát and Káthiáwár, while Khándesh, Násik and Ahmednagar have also imported more than in the previous year. The remaining blocks exhibit a slight decrease.

Oil-seeds.—The total imports of these seeds have decreased by about 6·12 lákhs maunds in quantity and in value by about Rs. 26 lákhs in comparison with the results recorded in the year 1884-85. The increase or decrease in the various descriptions of oil-seeds will be readily seen from the figures given below :—

	1884-85.	1885-86.	Increase or Decrease.
	Maunds.	Maunds	Maunds.
Linseed	4,953,751	4,889,551	— 64,200
Mustard and rape	1,309,271	1,489,441	+180,170
Til or gingelly	1,909,865	1,131,091	—778,774
Castor	29,938	2,988	— 26,950
Other oil-seeds	360,983	438,399	+ 77,416
Total ...	8,563,808	7,951,470	—612,338

It is apparent from these figures that nearly the whole of the decrease is due to the comparatively smaller imports of til seed during the year under review. The decrease under linseed is counterbalanced by the increase in other oil-seeds, while that in castor seed is insignificant.

The imports of linseed from the Central Provinces, Berár and the Nizám's territory have declined, but those from N.-W.P. and Oudh, Rájputána and Central India have improved sufficiently to make good that difference. Of the total imports of oil-seeds, the Bombay Port alone has appropriated 78 lákhs maunds, and the balance of about 1½ lákh is shared by the other internal blocks.

Ghee.—An improvement of about 14,000 maunds is perceptible in the import trade of this article; the whole of the increase is traceable to the imports from the N.-W.P. and Oudh, and may perhaps be accounted for by the larger number of Hindu marriages and other festivities held this year, than in the previous one.

Exports to External Blocks.

6. The exports to the external blocks of some of the principal commodities are shown below :—

Articles.	Quantity in Maunds.		Value in Rupees.	
	1884-85.	1885-86.	1884-85.	1885-86.
Coal	336,826	426,300	2,03,499	2,57,556
Cotton goods, including twist and yarn	720,716	944,946	2,94,89,869	3,68,58,906
Metals—copper, unwrought ...	40,603	97,157	12,69,478	27,11,794
Iron	600,801	659,285	26,47,279	25,65,031
Salt	2,455,043	3,910,896	61,50,394	96,95,763
Silk	848	1,717	3,06,392	6,30,999
Sugar	419,079	344,183	44,21,102	3,44,183
Tea	5,723	5,191	4,05,232	3,65,870
Tobacco	192,369	186,297	21,43,111	17,50,416

Coal.—The increase in the export traffic of coal is represented by about 90 thousand maunds, the total exports amounting to 426,300 maunds. Of this the Bombay Port is credited with 376,000 maunds and Khándesh, Násik and Ahmednagar with 47,000 maunds. Of the former the Central Provinces received 175,000 maunds, Berár 83,000 and the Nizám's territory 95,000 maunds. Of the latter 42,000 maunds were taken by the Central Provinces and about 5,000 by Berár. The increase is due to the larger exports from both the above blocks.

Cotton Goods.—Movements under this head, which includes twist and yarn, also appear to have increased by more than 2 lákhs of maunds, and by 73 lákhs of rupees in value. Of the total exports, twist and yarn formed ⅛ of the whole. Twist, European, was exported by the Bombay Port block to the extent of 76,000 maunds, while twist, Indian, was exported by all the internal blocks, but specially by the Bombay Port, and Khándesh, Násik and Ahmednagar.

The exports of piece-goods, which constituted ⅞ of the total business in cotton goods, rose from 640,000 maunds in the previous year to 825,000 maunds in the year under review. Of these 642,000 maunds were European piece-goods carried chiefly from the Bombay Port into the Punjab, Rájputána and Central India, N.-W.P and Oudh, and the Central Provinces and in uniformly increased quantities. The Indian piece-goods amounted to 182,000 maunds and were exported by almost all the internal blocks.

Copper, unwrought.—To the total exports amounting to 97,000 maunds the Bombay Port alone contributed 89,000 maunds, of which the N.-W.P and Oudh, Rájputána and Central India, the Punjab, and the Nizám's territory have respectively taken 32,000, 28,000, 12,000 and 8,000 maunds.

Iron.—The trade in iron has remained almost stationary.

Salt.—The increase in the exports of salt amounts to 1,400,000 maunds over the traffic for the preceding year. The three salt-exporting blocks, *viz.*, Bombay Port, Gujarát and Káthiáwár, and South of Narbada and below the Ghâts exported the whole of the quantity amounting to 3,900,000 maunds. The Punjab took as much as 110,000 maunds from Gujarát and Káthiáwár alone during the year, as against 3 maunds in the previous year. Rájputána and Central India took 556,000 maunds or nearly twice as much as in 1884-85, and the N.-W.P and Oudh 1,104,000 or 50 times more than in that year. Exports to the Central Provinces and Berár show an increase of 59,000 and 15,000 maunds respectively.

The following figures will exhibit in lákhs of maunds the quantity exported by each of the internal blocks during the years 1884-85 and 1885-86 :—

Year.	Bombay Port.	Gujarát and Káthiáwár.	South of Narbada and below the Ghâts.
1884-85	2·3	7·5	14·6
1885-86	1·7	22·1	15·1

Silk.—The traffic in the exports of silk has improved by about 800 maunds during the year, though the quantity exported appears to have been small, *viz.*, 1,717 maunds, valued at 6,00,000 rupees.

Silk, raw, foreign, constituted ¾ of the total exports and was mostly sent to the Punjab.

Sugar.—The decrease in drained sugar amounted to 100,000 maunds, but this was counterbalanced in some measure by an increase of about 25,000 maunds in sugar undrained. The exports of sugar drained were mostly from the Bombay Port.

Tea, Foreign.—Of the total quantity exported, *viz.*, 3,901 maunds, the Punjab took almost the whole, *i. e.*, 3,528 maunds.

Tobacco.—The decrease in the total exports of this article is 6,000 maunds, which is apparently due to the smaller exports to Rájputána and Central India from Gujarát and Káthiáwár.

Total External Trade.

7. The following figures indicate the percentage of the total external trade transacted during the year by the external and internal blocks of the Presidency :—

External Blocks.	Per Cent.	Internal Blocks.	Per Cent.
Central Provinces	39·5	Bombay Port	80·1
Rájputána and Central India ...	14·9	Gujarát and Káthiáwár	7·8
N.-W.P. and Oudh	13·6	Khándesh, Násik and Ahmednagar.	5·0

General character of the trade.

8. The total goods, both principal and minor commodities, *imported* into the Presidency amounted to 30,843,195 maunds, and are valued at Rs. 20,34,40,347. Of these, grains including wheat represent 17,340,544 maunds or 56·2 per cent., and oil-seeds 7,951,470 maunds or 25·8 per cent., or a total of 25,292,014 maunds or 82·0 per cent. for grains and oil-seeds combined. Grains are valued at Rs. 4,74,04,933, oil-seeds at Rs. 3,55,62,341 and opium at Rs. 5,34,28,648, or a total of Rs. 1,300 lákhs for the articles under these three heads.

9. The total *Export* trade aggregated 9,965,038 maunds valued at Rs. 8,25,85,492—The chief articles of exports were coal, cotton goods, gunny bags, metals, kerosine oil, provisions (exclusive of ghee), railway plant and rolling stock, sugar, other articles of merchandise, tobacco and salt, which last was moved in large quantities.

10. It has already been shown that the Internal trade of the Presidency has improved in comparison with that for the preceding year. This was chiefly due to the transactions in coal (the imports of which into Gujarát and Káthiáwár block from the Bombay Port show an increase of 800,000 maunds) and partly to the oil-seeds and metals, the increase in the first of which amounted to 454,000 maunds, more particularly in mustard and rape seeds, owing to the larger imports into the Bombay Port from Gujarát and Káthiáwár, while that in the second amounted to 147,000 maunds and was more general. The decrease in cotton, raw, amounted to 300,000 maunds and that in grains including wheat to 158,000 maunds. The former is for the most part due to the smaller imports into the Bombay Port from Gujarát and Káthiáwár, while the latter has resulted from the falling off under wheat, the total trade in which has declined from 2,200,000 maunds in 1884-85 to 1,900,000 maunds in 1885-86. A slight increase is, however, apparent in the traffic under other *sub-heads* excepting "Other grains." The differences in the transactions of the remaining principal articles are not so noteworthy, and call for no comment.

Road-borne Trade.

11. The only change introduced in the registration of the trade by road during the year under review consisted in the transfer of the registration post from Kawadgáon to Tisgáon in the Ahmednagar District on the 30th April 1885, at the recommendation of the Collector, with a view to better registration being effected.

12. The following table compares the trade as registered during the last three years:—

Nature of Trade.	1883-84.	1884-85.	1885-86.	Figures for 1885-86 compared with those for 1884-85.	
				Increase.	Decrease.
	Ind. Mds.	Ind. Mds.	Ind. Mds.	Ind. Mds.	Ind. Mds.
Imports	2,943,213	2,973,198	3,664,504	691,306	...
Exports	749,912	790,692	768,456	...	22,236
Total ..	3,693,125	3,763,890	4,432,960	669,070	...

In comparison with the figures for 1884-85, though a small decrease is perceptible in the exports, still on the whole the traffic has improved by 669,070 maunds or 18·12 per cent. When compared with the figures for 1883-84, the total increase amounts to 739,835 maunds, that in the imports being 721,291 maunds and in the exports 18,544 maunds.

13. Judged from the value point, the trade has fallen off by nearly Rs. 1,30,000. The imports though greater in quantity have decreased in value, whereas with the exports the case is reverse. In explanation of the former, it may be stated, that although nearly four-fifths of the increase is due to the larger imports of wheat and other food-grains which have added to the bulk of the trade, there has been no corresponding addition to its value, as a considerable reduction has been made in the values returned for these articles this year as compared with the year preceding. It will be perceived from a comparison of the figures for the two years that the values of wheat and jowár and bájra as given in this year's list are Rs. 2-12-8 and Rs. 1-9-7 as against Rs 3-2-8 and Rs. 2-2-3 respectively last year.

14. The contributions made by each of the districts to the total trade amounting to 4,432,960 maunds are shown below in percentages in the order of their importance;—

	Contribution in Maunds.	Per Cent.
Sholápur	1,556,555	35·11
Ahmednagar	928,795	20·95
Násik	547,500	12·35
Panch Mahál...	529,356	11·94
Khándesh	384,593	8·67
Dhárwár	208,591	4·72
Kánara	192,382	4·33
Mahi Kántha	51,720	1·16
Bijápur	33,468	0·77
Total ...	4,432,960	100·00

Of the entire trade Sholápur claims 35·11 per cent. or more than one-third, Ahmednagar one-fifth and Násik and the Panch Mahál more than one-ninth each.

15. Of the total imports into the Presidency amounting to 3,664,504 maunds, Sholápur received 36·99 per cent., Ahmednagar 22·24 per cent., Násik 11·90 per cent., Panch Mahál 11·47 per cent., Khándesh 7·92 per cent., Dhárwár 4·29 per cent., Kánara 3·60 per cent., Bijápur 0·91 per cent., and Mahi Kántha 0·69 per cent. It will be observed that all the districts except the Panch Mahál and Khándesh, which alone have exchanged places, have retained the positions they held last year. Their relative shares are summarized in the following table in comparison with the figures for the last two years:—

Names of the Districts.	1883-84.		1884-85.		1885-86.		Increase or Decrease in comparison of current year's figures with those for last year.
	Indian Maunds.	Per Cent.	Indian Maunds.	Per Cent.	Indian Maunds.	Per Cent.	
Sholápur	1,199,193	40·77	1,056,291	35·52	1,355,454	36·99	+299,163
Ahmednagar	507,259	17·25	624,426	21·01	815,061	22·24	+190,635
Násik	400,211	13·62	371,723	12·51	436,035	11·90	+64,312
Panch Mahál	174,620	5·93	251,012	8·21	420,222	11·47	+169,210
Khándesh	277,117	9·41	262,258	8·82	290,141	7·92	+27,883
Dhárwár	204,377	6·96	173,695	5·86	156,913	4·28	−16,782
Kánara	148,548	5·06	147,231	4·96	131,960	3·60	−15,271
Bijápur	3,380	·14	63,302	2·32	33,468	·91	−29,834
Mahi Kántha	28,508	·86	23,260	·79	25,250	·69	+1,990
Total ...	2,943,213	100·00	2,973,198	100·00	3,664,504	100·00	+691,306

All the districts show more or less improvement except Dhárwár, Kánara and Bijápur, which show only a slight decrease. The increase in the case of Sholápur amounting to nearly 300,000 maunds is chiefly due to the larger imports of jowár and bájra and wheat, which during the year under report amounted to 219,213 and 191,637 maunds as against 76,404 and 117,885 maunds respectively during the last year. The imports there of cotton, raw, and linseed show a little depression, whereas those in other oil-seeds a little improvement. The increase in the imports of food-grain, especially of jowár and bájra, is reported by Mr. H. F. Silcock, the Collector in charge of the district, to be due greatly to the favourable season and to a strong demand for such grain in Bellary and surrounding districts, where the crops were not so good. The decrease in linseed was owing to the crops having suffered greatly from blight in the early part of the season and the outturn proving to be much below the average. The import trade at Sholápur chiefly consisted of raw cotton, food-grains and oil-seeds.

The increase in the imports in Ahmednagar amounting to over 190,000 maunds consists mainly of the larger imports of jowár and bájra, wheat and cotton, raw. In Násik, Panch Mahál and Khándesh most of the increase is traceable to the large imports of wheat and other food-grains the crops in which appear to have yielded a smaller harvest in those districts than the last year. The decrease in the imports in Dhárwár is attributable to the smaller imports of sugar, drained and undrained, of tobacco and of Indian piece-goods and that in the imports in Kánara is observable in the other food-grains, and reported to be due to scanty produce owing to destruction of crops. The decrease in Bijápur is perceptible in the smaller imports of stone, and may be attributed to the fact that while in 1884-85 the wadders residing at Ilkal and its neighbourhood having no employment in their fields owing to the scanty rain-fall in that year occupied themselves in quarrying stone within the limits of the Moglai and importing it into the Bijápur District for sale at the Ilkal market, during the year under report, owing to the flourishing condition of the district, the wadders as well as other labouring classes had not to seek work beyond the frontier.

16. The principal articles of imports are exhibited in the following table in comparison with those for the last two years :—

Names of Articles.	1883-84.	1884-85.	1885-86.	Figures for 1885-86 compared with those for 1884-85.
	Ind. Mds.	Ind. Mds.	Ind. Mds.	Ind. Mds.
Cotton	466,369	304,317	319,560	+15,243
Wheat	584,470	544,559	807,704	+163,145
Other food-grains	484,605	607,666	967,968	+360,302
Linseed	482,784	514,435	455,311	−59,124
Til or Gingelly seed... ...	109,232	109,556	167,569	+58,013
Other oil-seeds	266,424	278,963	308,616	+29,653
Oils	89,341	87,336	115,621	+28,285
Provisions	12,499	62,695	69,704	+3,379
Spices	20,497	16,268	16,586	+318
Sugar	197,215	166,466	160,228	−6,238
Timber	41,459	33,713	41,766	+8,053

Except in linseed and sugar, an increase is perceptible all through, that in food-grains including wheat being the most conspicuous: of the total imports little less than a half is represented by food-grains and one-third by cotton and oil-seeds combined: of the total imports of cotton into the Presidency, 133,716 maunds were imported into Sholápur and 164,301 into Ahmednagar: of wheat Ahmednagar imported 234,610 maunds, Sholapur 191,637 maunds, Násik 175,072 and Panch Mahál 148,085 maunds. Of the total linseed, more than half the quantity was imported into Sholápur.

17. The export trade amounted to 768,456 maunds or 22,236 maunds less than in the last year. Of the total exports 26·17 per cent. was from Sholápur, 14·80 from Ahmednagar, 14·51 from Násik, 14·20 from Panch Mahál, 12·29 from Khándesh, 7·86 from Kánara, 6·73 from Dhárwár, and 3·44 from Mahi Kántha, while there were no exports at all from Bijápur. Dhárwár, which occupied the third place last year, has gone down as low as seventh; whereas Ahmednagar, which occupied the sixth place last year, has gone up to second in order of importance. The details of the export trade for the last two years are compared in the following table with those for the year 1885-86 :—

Names of the Districts.	1883-84.		1884-85.		1885-86.		Figures for 1885-86 compared with those for 1884-85.
	Ind. Mds.	Per cent.	Ind. Mds.	Per cent.	Ind. Mds.	Per cent.	
Sholápur	210,618	28·08	236,681	29·94	201,101	26·17	—35,580
Ahmednagar	64,843	8·65	78,454	9·92	113,734	14·80	+35,280
Násik	113,316	15·11	129,505	16·37	111,465	14·51	—18,040
Panch Maháls...	78,434	10·56	80,200	10·14	109,134	14·20	+28,934
Khándesh	57,342	7·64	79,817	10·09	94,452	12·29	+14,635
Kánara	42,872	5·61	50,003	6·33	60,422	7·86	+10,419
Dhárwár	132,033	17·60	98,720	12·49	51,678	6·73	—47,042
Mahi Kántha	50,454	6·75	37,312	4·72	26,470	3·44	—10,842
Bijápur	...	...	...	...	...	...	.....
Total ...	749,912	100·00	790,692	100·00	768,456	100·00	—22,236

Compared with 1884-85 the exports from Ahmednagar, Panch Maháls, Khándesh and Kánara have more or less increased, but this increase is more than counterbalanced by the corresponding decrease in the remaining districts, the result being that the net falling off in the export traffic was 22,236 maunds. The increase in the exports from Ahmednagar appears to be due to the larger exports therefrom of European twist and yarn, piece-goods (European and Indian), rice, provisions and salt, and in those from the Panch Maháls to the larger exports of food-grains, mowra flowers and salt. The increase in the case of Khándesh is observable in food-grains and other articles of minor importance, whereas that in Kánara is due to the larger export of salt. The decrease in Dhárwár amounting to 47,042 maunds is particularly due to the smaller exports of food-grains and spices and that in Sholápur to the smaller exports of salt.

18. The principal articles of Export are compared in the following table :—

Names of Articles.	1883-84.	1884-85.	1885-86.	Figures for 1885-86 compared with those for 1884-85.
	Ind. Mds.	Ind. Mds.	Ind. Mds.	Ind. Mds.
Twist and Yarn (European) ...	14,889	17,204	25,882	+ 8,678
Do. (Indian)	3,762	4,347	2,737	— 1,610
Piece-goods (European)	25,464	24,934	29,158	+ 4,224
Do. (Indian)	7,634	8,316	15,649	+ 7,333
Wheat	77,844	61,705	37,629	—24,076
Other food-grains	50,519	46,823	43,997	— 2,826
Iron	20,239	19,589	20,030	+ 441
Mowra flowers	46,383	37,691	31,424	— 6,267
Provisions	5,272	42,559	50,589	+ 8,030
Salt...	321,156	318,174	302,469	—15,705
Spices	37,911	33,026	24,632	— 8,394
Sugar	27,248	35,357	34,947	— 410
Tobacco	29,792	31,080	27,821	— 3,259

Of the total exports from the Presidency amounting to 768,456 maunds, those in salt alone amounted to 302,469 maunds or a little less than half. Of the total salt nearly three-fourths was exported to the Nizám's Territory *viâ* the Násik, Ahmednagar and Sholápur posts. Except in twist and yarn (European), piece-goods (European and Indian), iron and provisions, the export trade appears to have declined, the decrease in food-grains being nearly 27,000 and that in salt 16,000 maunds.

19. The Import and Export trade of the Bombay Presidency for the last two years is summarized in the following table with reference to the territories in connection with which it is recorded —

Names of the Territories.	1884-85.			1885-86.			Increase or Decrease.
	Imports.	Exports.	Total.	Imports.	Exports.	Total.	
	Ind. Mds.	Ind. Mds.	Ind. Mds.	Ind. Mds.	Ind. Mds.	Ind. Mds.	Ind. Mds
Rájputána and Central India ...	339,753	158,543	498,296	506,670	174,499	681,169	+ 182,873
Central Provinces and Berár ...	74,823	32,699	107,522	95,727	48,226	143,953	+ 36,431
Nizám's Territory	2,237,696	450,727	2,688,423	2,773,234	433,631	3,206,865	+ 518,442
Madras and Mysore	320,926	148,723	469,649	288,873	112,100	400,973	— 68,676
Total ...	2,973,198	790,692	3,763,890	3,664,504	768,456	4,432,960	+ 669,070

A comparison of the figures will show that the Imports into the Presidency from Foreign Territories were nearly five times as large as the Exports to them. Except in Madras and Mysore, the increase is perceptible all through ; that in the Nizám's Territory alone being over 500,000 maunds or a little less than four-fifths of the entire increase. Of the total Import and Export trade amounting to 4,432,960 maunds, 72·34 per cent. is with the Nizám's Territory, 15·37 with Rájputána and Central India, 9·04 per cent. with Madras and Mysore and 3·24 per cent. with the Central Provinces and Berár.

20. I shall now proceed to record as briefly as possible the observations made by the District Officers on the trade of their districts.

Mahi Kántha.—The Acting Political Agent, Lieut.-Colonel W. Scott, reports that the transit duties levied on the routes by the Chiefs remain the same as last year.

Panch Maháls.—Mr. H. E. Winter, the Collector of the Panch Maháls, reports as follow :—

"Large quantities of grain were imported to meet the heavy demand of the Bombay market. The quantity of wheat, it is to be noted, was more than double that of the preceding year. Formerly the salt traffic through this district was considerable, but since the opening of a warehouse at Rutlam it has shown a downward tendency, a larger quantity being, I suppose, sent thither by the Rájputáná-Málwa Railway. There is a warehouse at Godhra and presumably the extension of the Railway to Rutlam would result in larger quantities being sent thither *viâ* Godhra."

"A notification appeared in the *Gazette of India*, dated 10th January 1885, stating that the Kerowli State had abolished transit duties, but I am not aware of any other change having been made in the rates of transit duties levied by the Native States of Central India and Rájputána."

"The extension of the Railway to Rutlam is highly desirable and looking at the figures given here, there ought to be considerable goods traffic. It would stimulate trade and be a means of reducing the annoyance caused by transit duties and I trust, therefore, that you will seize this opportunity of pressing the matter very strongly indeed upon the notice of the proper authorities. I may mention here that grain, mhowra and wood are the chief indigenous articles of Export from this district."

Khándesh.—Mr. H. A. Hughes, Assistant Collector in charge Palasner Náka, makes the following among other remarks :—

"The districts traded with on this road as far as concerns the Khándesh District, are Holkar's territories to the north of Khándesh, Dhár and Nimár. Little or no goods pass from these territories along this road whose destination lies outside the Khándesh limits, as owing to the recent extension of the Railway system and the lowering of rates for freight, both on the G. I. P. Railway and the Holkar State Railway, commodities intended for the Násik District or Bombay are almost entirely carried by rail. The trading centres in Khándesh for this traffic are Dhulia and Shirpur, both considerable towns with a large trade."

"The great cause of the falling off, both in Imports and Exports, appears to have been the scanty rain-fall in many parts of Khándesh and in the States with which traffic is carried on to the north of the Khándesh District. This cause has operated in a double way, both by diminishing the number of cattle and the quantity of grain available for export, very many cattle having died from want of sufficient fodder, both in Khándesh and the States to the north of this District, and secondly by diminishing the purchasing power of the people suffering from the bad season and consequently the demand for commodities in which in a good year there is a brisk trade."

"The increase in the importations of wheat, jowári and bájri, may be traced to the general bad crops on the trade route in Khándesh, and the consequent rise in prices. Last year the average price of wheat at Shirpur was Rs. 12 per *map;* this year the price is about Rs. 20 per *map.*"

"An increase is shown in the Exports of rice over last year. This is explained by the fact that the price of rice fell in Khándesh early in the rains, though it rose again later, the rice crop being, it is understood, poor in Holkar's dominions."

"I am not aware that any change has taken place in the transit duties as compared with last year, but this is one cause amongst many, which compels the people to have recourse to the railways and discourages local traffic between those States and Khándesh."

Mr. R. A. L. Moore, Assistant Collector of Khándesh, in charge of Ráver, Jámti, Edalábád and Wákad Nákás, reports that merchants and traders used to fear that Government intended to impose a tax or toll on their goods, but this fear is gradually dying out. Traders when desired by the Nákádárs submit their goods to their examination. In his opinion, the causes of increase and decrease in the trade are that this year there was a deficient rain-fall which checked export, and increased number of marriages (the year being Kányágat) which encouraged imports. He further says that goods are not now exported to any extent from Khándesh into the Nizám's territory, because of the duty levied by the Nizám, nor are they exported to Berár, because prices in that Province do not range higher than in Khándesh itself. In writing about the Wákad Náka, Mr. Moore says that the causes of increase in the Imports and Exports are that this year there was a sufficient rain-fall owing to which the crops were good, a circumstance which increased the volume of trade. Prices, too, were higher than last year. The Nákádár reports that the Import and Export trade would be increased if a "pucka" road were made from Ajunta in the Nizám's dominions through Wákad to Neri in the Jámner Táluka.

Násik.—Referring to the Nándgaon Náka, Mr. W. Woodward, Collector in charge of the District, writes that the imported goods are chiefly brought from Jalnápur, Shivar, Aurangábad and Deogaon in the Nizám's territories and almost all the exported goods come to Nándgaon from Bombay, Nágpur and the Central Provinces. He further observes that he very much doubts the utility of the Nákás, the statistics there recorded being of course approximate only and hardly worth the cost expended on obtaining them. In his opinion, the Náka at Nándgaon might at any rate be abolished, as almost all the traffic that comes in and goes out of that Náka is carried and brought by the railway and the statistics regarding it are included in the Railway returns. The Collector refers to Government Resolution No. 9158, dated 18th November 1884, Revenue Department, in paragraph 4 of which Government have said "as suggested by Mr. Pritchard the consideration of the question of the abolition of the Nándgaon Post in Násik and Puntámba in Ahmednagar should be deferred until the publication by the Examiner of Guaranteed Railway Accounts of the route-map for the trade report for the year 1884-85 when the existing arrangements should be revised" and says that no orders appear to have been issued yet on the subject.

Sholápur.—Mr. H. F. Silcock, in charge of the district, reports that no changes in the transit duties levied in the native territory are known to have occurred, and that no alterations of any importance have been made in the octroi regulations in British Territory since the submission of the report for the last year.

Ahmednagar.—Mr. G. Waddington, Collector of the District, reports that there are no changes in the transit duties.

Bijápur.—Mr. E. Ebden, the Collector of the District, reports that there was no change in the transit duties levied by His Highness the Nizám's Government during the year.

Dhárwár.—Mr. J. R. Middleton, the Collector of Dhárwár, reports that the transit duties levied by the Nizám's Government and the Mysore State on goods imported into or exported from the district remain the same as before. He is of opinion that as the Gadag-Bellary section of the Southern Marátha Railway has been opened, the Náka at Mundargi, which is on the road between Gadag and Bellary, should be abolished. The necessity for keeping the Náka at Motebennur will no longer exist after the completion of the Southern Extension Railway which is now under construction.

21. I append a map showing the positions of the Nákás as well as the blocks into which the Railway lines in India have been divided for registration of the Rail-borne trade of the Bombay Presidency. I also append a statement showing the expenditure incurred on account of the Náka establishment during the year under review, from which it will be perceived that the total expenditure incurred amounted to Rs. 11,498-10-4 as against Rs. 10,973-11-0, or Rs. 524-15-4 more than the last year. Of the above, Rs. 10,870-10-0 were on account of salaries and Rs. 628-0-4 on account of contingencies. The total rail-borne trade registration expenditure amounted to Rs. 4,130-5-11 against Rs. 3,852-5-1 last year.

I have the honour to be,
Sir,
Your most obedient Servant,
F. MORRISON,
Officiating Examiner of Guaranteed Railway Accounts.

LIST OF APPENDICES.

RAIL-BORNE TRADE.

A.—Table of percentage deductions from gross weights of Rail-borne Trade to obtain net weights, and also of prices furnished by the Commissioner of Customs, Salt, Opium, and Abkári, Bombay, for valuation of Rail-borne Trade for the years 1884-85 and 1885-86.

B.—Statement showing the total Rail-borne Imports and Exports of the Bombay Presidency during the year ending 31st March 1886, compared with the Imports and Exports of the preceding year.

C.—Statement showing Trade by Rail between the different Blocks of the Bombay Presidency and the different other Provinces during the year ending 31st March 1886.

D.—Statement showing Trade by Rail between the different Blocks of the Bombay Presidency during the year ending 31st March 1886.

ROAD-BORNE TRADE.

E.—Statement showing the total quantity and value of Imports of each District during the year 1885-86.

F.—Statement showing the total quantity and value of Exports of each District during the year 1885-86.

G.—Statement showing the total quantity of Imports of the Road-traffic across each Post during the year 1885-86.

H.—Statement showing the total quantity of Exports of the Road-traffic across each Post during the year 1885-86.

I.—Statement showing details of expenditure incurred in connection with the Registration of Rail and Road-borne Trade from 1st April 1885 to 31st March 1886.

A.

Table of Percentage Deduction from Gross Weights of Rail-borne Trade to obtain Net Weights, and also of Prices furnished by the Commissioner of Customs, Salt, Opium and Abkári, Bombay, for valuation of Rail-borne Trade for the years 1884-85 and 1885-86.

No. 2350 of 1886.

Poona, 15th October 1886.

Submitted to Government.

The following brief summary of the careful review of the tabular statements is offered.

1. *Rail-borne Trade.*—In round numbers, the figures show an increase in the total trade of 6 million maunds in quantity, but accompanied by a decrease in recorded value amounting to 3½ lákhs rupees. Imports and exports, *i.e.* trade with external blocks, make up 59 per cent. of the total. The remainder, 41 per cent., represents the local trade or trade of internal blocks *inter se*. This ratio is practically the same as for the previous year.

	1884-85.	1885-86.
Imports	28	31
Exports	7½	10
Local trade	27½	28
Total million maunds ...	63	69

2. The following statement shows the chief imports into, and exports from, the Bombay Presidency :—

Imports into Bombay Presidency from Sind and the rest of India.	Maunds.	Exports from Bombay Presidency to Sind and the rest of India.	Maunds.
Wheat	13,636,728	Salt	3,910,896
Other Food-grains...	3,703,816	Cotton Piece-goods(European) ...	619,071
Oil-seeds	7,951,470	Do. (Indian) ...	225,875
Cotton (raw)	2,331,210	Coal	426,300
Dyes and Tans	432,548	Metals	885,553
Wool (raw)	96,621	Sugar	344,183
Opium	75,437	Kerosine-oil	209,957
Provisions (Ghee)...	106,502	Tobacco	186,297
Others	2,508,863	Jute and Gunny Bags	258,164
		Others	2,898,742
Total ..	30,843,195	Total ..	9,965,038

No less than 90 per cent. of imports are received by the Port of Bombay alone, and therefore chiefly for export beyond the seas. Grains show an increase of two million maunds. Of the total imports (17 million maunds) wheat is credited with 13½ millions, and is received as indicated marginally. This strong evidence of the progress of the wheat trade will be still further corroborated by the figures of the local trade. Oil-seeds give a decrease of ½ million maunds, due to lessened receipts of gingelly from Central India and Rájputána. Cotton shows as large an increase. Half comes from the Berárs. The rest about equally from the North-West Provinces and Oudh and from Rájputána and Central India.

Central Provinces ...	6·9
North-West Provinces and Oudh	2·0
Punjáb	1·8
Rájputána and Central India	1·6
Berár	1·2
Total million maunds ...	13·5

3. The sources of other principal imports are :—

Dyes and Tans (Myrabolams) ...	Central Provinces.
Opium	Rájputána and Central India.
Wool	Do. do. and Punjáb.
Ghee	North-West Provinces and Oudh and Central Provinces.

Of the 10 million maunds of exports, 4 millions are credited to salt against 2½ millions in the previous year. In order of importance, the other chief exports

were cotton goods, coal, metals, sugar and tobacco, *i.e.* articles mostly from foreign parts shipped to Bombay for the up-country demand. Salt went chiefly to the North-West Provinces and Central Provinces; Rájputána and Central India took twice as much, but the North-West Provinces and Oudh fifty times as large a quantity as in the previous year. The export of tobacco from Gujarát and Káthiáwár to Rájputána and Central India declined.

4. *Local Trade by rail.*—Of the 28 million maunds included under this head, Bombay Port received $11\frac{3}{4}$ and gave $11\frac{1}{4}$ millions. The receipts were chiefly grains $2\frac{1}{4}$, including wheat $1\frac{3}{4}$, cotton and cotton goods $2\frac{1}{2}$, and oil-seeds and oils $3\frac{1}{2}$ million maunds. Bombay despatched 5 million maunds of coal to the mofussil.

5. The movements by rail from the Southern Marátha Country in cotton are worthy of special notice. Before the new line was opened, all cotton was exported by sea. In 1886 up to August the totals were—by sea 24,683 bales,—by rail 38,451. Of this, 27,000 bales came to Bombay after the burst of the monsoon, and thus five or six months earlier than if the sea route only were available. The gain in avoiding damage by storage in the villages during the monsoon is considerable.

6. *Road-borne Trade.*—The total road-borne traffic registered amounted to $4\frac{1}{2}$ million maunds compared with $3\frac{3}{4}$ millions of the previous year. Last year imports made up 79 per cent. of the total. This year, 83 per cent. This trade is practically the traffic with Native States by the chief trade routes. Much of it is again registered as internal rail-borne traffic between the blocks of the Presidency. Thus the principal post in Sholápur is really the registration post of the imports from the Nizám's territory. It is this which explains the high place taken by Sholápur and Admednagar among internal blocks as regards the amount of export traffic by rail. The whole system of road traffic registration is under consideration.

	1884-85.	1885-86.	Increase.
	Rs.	Rs.	Rs.
Rail	3,852	4,130	278
Road	10,974	11,498	524
Total ...	14,826	15,628	802

The cost of trade registration is shown marginally.

E. C. OZANNE,
Director of Agriculture,
Bombay.

No. $\frac{\text{L. T.}}{155}$ of 1887.

FROM

C. M. MOBERLY, Colonel,
Examiner of Guaranteed Railway Accounts, Bombay;

To

THE DIRECTOR OF AGRICULTURE, Bombay.

Bombay, 31st August 1887.

SIR,

As arranged in Bombay Government Resolution No. 2220 of 16th March 1885, Revenue Department, I have the honour to forward herewith, for submission to Government, the returns of rail and road-borne trade of the Bombay Presidency for the official year ending 31st March 1887, together with my comments thereon.

Rail-borne Trade.

2. These returns are similar to those hitherto submitted, but the trade in minor commodities has been separated from that in principal ones, and the total trade under each of these divisions is again shown in lump. The registration of live-stock is discontinued with the approval of the Commissioner of Customs, Salt, Opium, and Abkári, Bombay.

Changes.

3. The changes introduced into the system of registration during the past official year are as follows:—

Firstly.—The limits of Blocks external to each Presidency or Province were fixed by the Government of India as per Circular No. $\frac{\text{140 Stats.}}{\text{4-35}}$ of 11th December 1885, Revenue and Agricultural Department.

Secondly.—Arrangements were made with the Auditors, East Indian and Southern Marátha Railways, to register in their respective offices and to furnish this office with returns of such portion of the Railway traffic of the Bombay Presidency as was booked from, to, or *viâ* the individual Railway in accordance with the Government of India Circular No. $\frac{\text{111 Stats.}}{\text{4-39}}$ of 24th August 1885, Revenue and Agricultural Department.

Thirdly.—Two new sub-heads "Brass, unwrought" and "Brass and Copper, wrought" have been added to the classified list of articles, and the rates of deductions on account of packing in respect to the articles noted below altered as suggested by the Government of India in their Circular No. $\frac{\text{39 Stats.}}{\text{7-16}}$ of 17th June 1886, Revenue and Agricultural Department.

Rates of deductions up to 31st March 1886.		Rates of deductions from 1st April 1886.	
Cotton Piece-goods (1) European (*a*) in bales	3·8	(1) European— (*a*) in bales and bundles	3·5
(2) Indian (*a*) in bales	3·8	(2) Indian (*a*) in bales and bundles	3·5
Metals— (4) Others	25·0	(6) Others	1·0

Lastly.—The trade in cotton piece-goods, European and Indian, (*a*) in bales and bundles, and (*b*) in boxes, has been amalgamated under the respective subheads, *viz.* (1) European, and (2) Indian, as desired by the Government of India in their letter No. 19-7-2 Stats., dated 19th January 1887, Revenue and Agricultural Department, and quoted in the preamble of the Bombay Government Resolution No. 861 of 5th February 1887, Revenue Department.

Valuation.

4. The prices, as heretofore, have been furnished by the Chief Account Officer of the Customs Department, except for the articles noted below, which have been valued according to the prices given for those articles in the price-list furnished by the

Commissioner, Hyderabad Assigned Districts, for the valuation of the annual trade of the Province of Berar :—

1 Brass, unwrought.
2 Brass and Copper, wrought.
3 Drugs and Chemicals—
  (1) Intoxicating, other than opium.
  (2) Non-intoxicating.
4 Leather, manufactured.
5 Paper and Pasteboard.
6 Railway Plant and Rolling Stock.

5. The total trade of the Bombay Presidency for the last three years is compared in the following table :—

Description of Trade.	Quantity in Maunds.			Value in Rupees.		
	1884-85.	1885-86.	1886-87.	1884-85.	1885-86.	1886-87.
	Mds.	Mds.	Mds.	Rs.	Rs.	Rs.
(1) Imports from External Blocks ...	28,088,168	30,843,195	31,750,477	19,02,15,133	20,34,40,347	22,86,90,244
(2) Exports to do. do.	7,674,546	9,965,038	12,577,081	7,01,09,221	8,25,85,492	10,02,30,575
(3) Internal or Local Trade ...	27,515,582	28,043,954	32,972,995	20,93,37,730	18,32,94,556	20,96,49,560
Total ...	63,278,296	68,852,187	77,300,553	46,96,62,084	46,93,20,395	53,85,70,379

The total trade for 1886-87 has thus increased over that of 1884-85 and 1885-86 respectively by 14,022,257 maunds or 22·1 per cent., and by 8,448,366 maunds or 12·27 per cent. in quantity and by Rs. 6,89,08,275 and Rs. 6,92,49,984 in value.

To the total increase in weight over the year 1885-86 the imports from the External Blocks contributed 907,282 maunds or 10·74 per cent., exports to those blocks 2,612,043 maunds or 30·92 per cent., and the internal trade 4,929,041 maunds or 58·34 per cent. Likewise the increases in value are Rs. 2,52,49,897 in the imports, Rs. 1,76,45,083 in exports, and Rs. 2,63,55,004 in the internal trade.

6. The import trade of the Bombay Presidency is further summarized below with reference to the Internal and External Blocks for the past two official years :—

From External Blocks.		Into Bombay Port.	Into Gujarát and Káthiáwár.	Into South of Narbada and below the Ghats.	Into Khándesh, Násik and Ahmednagar.	Into Poona and Sholápur.	Into Southern Marátha Railway.	Total in Maunds.	Value in Rupees.

Except the South of Narbada and below the Ghâts, and Poona and Sholápur Blocks, all the Internal Blocks show improvement in trade.

Imports from External Blocks.

7. The trade in principal articles imported into the Presidency from the External Blocks during the last three years is compared below :—

Articles.	Quantity in Maunds.			Value in Rupees.		
	1884-85.	1885-86.	1886-87.	1884-85.	1885-86.	1886-87.
	Mds.	Mds.	Mds.	Rs.	Rs.	Rs.
Coal	687,260	888,614	838,320	4,15,219	5,36,871	4,89,020

Til or Gingelly	1,909,865	1,131,091	1,518,411	98,47,741	61,09,069	77,42,314
Other Oil-seeds... ...	390,921	441,387	275,718	15,92,986	18,55,870	10,49,761
Ghee	92,066	106,502	103,392	27,61,980	33,20,422	30,12,907
Sugar, drained and undrained	56,758	87,104	325,075	3,79,441	5,14,765	19,85,371
Tea, Indian	1,675	2,754	2,975	1,31,365	1,76,428	2,07,832
Tobacco	8,448	13,897	16,950	94,116	1,30,574	1,67,116

Cotton, Raw.—The trade in this article was more by 1,647,525 maunds than in 1884-85 and by 1,090,817 maunds than in 1885-86. Every one of the External blocks except Madras has contributed to these increases as will be observed from the following statement :—

Years.	Punjáb.	Rájputána and Central India.	North-West Provinces and Oudh.	Central Provinces.	Berár.	Nizám's Territory.	Madras.
	Mds.	Mds.	Mds.	Mds.	Mds.	Mds.	Mds.
1884-85	75,405	453,161	256,906	47,182	782,433	103,119	56,296
1885-86	87,917	500,011	386,379	104,151	1,221,603	21,715	9,398
1886-87	121,379	866,080	471,202	154,037	1,697,516	70,432	41,380

Of the total imports (3,422,027 maunds) the Bombay Port alone has absorbed 3,256,628 maunds.

Cotton Piece-goods, Indian.—The increase of 12,413 maunds in this article is due to the somewhat larger imports into Gujarát and Káthiáwár, and Khándesh, Násik and Ahmednagar Blocks from Rájputána and Central India, and to those into the Southern Marátha Railway Block from Madras.

Indigo.—The imports of Indigo have considerably improved in comparison with those for the corresponding year, which amounted to 6,121 maunds as against 2,036 maunds. The increase of 4,085 maunds is perceptible in the imports into the Bombay Port and Southern Marátha Railway from Madras.

Wheat.—Compared with the two preceding years, *viz.* 1884-85 and 1885-86, the quantity of wheat imported during the year under review shows an improvement of 2,584,600 maunds and 755,653 maunds respectively, the latter of which has occurred in the imports from Rájputána and Central India, the Province of

Berár, and the Central Provinces. The imports from the Punjáb, and the North-West Provinces and Oudh indicate each a falling off of more than 700,000 maunds in the third quarter of the year :—

External Blocks.	1884-85.	1885-86.	1886-87.
	Mds.	Mds.	Mds.
Punjáb	593,097	1,836,309	1,050,496
Rájputána and Central India ...	690,099	1,601,764	2,387,115
North-West Provinces and Oudh ...	259,972	2,070,593	1,324,152
Central Provinces	9,726,046	6,933,628	7,586,039
Berár	535,515	1,191,598	2,024,641
Nizám's Territory	3,050	2,834	19,165
Madras	.....	.....	771
Total ...	11,807,779	13,636,726	14,392,379

Rice.—Of the net decrease of 565,249 maunds, a decrease of 549,001 maunds is noticed in the imports from the Central Provinces which supplied 349,577 maunds only against 898,578 maunds in the year 1885-86.

Jowár and Bájra.—There is a decrease of 487,788 maunds in the imports from all the External Blocks except Madras and Mysore.

Other Grains including Gram.—The trade under these heads exhibits a little improvement; an increase of 194,156 maunds has taken place in the former and of 189,594 maunds in the latter. The imports of gram from the Central Provinces have fallen off to the extent of 223,961 maunds.

Hides and Skins.—A decrease of 21,384 maunds is especially due to the smaller imports of hides, undressed, from the Central Provinces into the places South of Narbada and below the Ghâts Block which amounted to 5,306 maunds against 25,023 maunds in the previous year.

Oil-seeds.—The total decrease in these seeds amounts to 1,160,185 maunds of which 950,994 maunds has been traced in the imports of linseed, 430,842 maunds in mustard and rape, and 165,669 maunds in other oil-seeds including castor; the only increase observable is of 387,320 maunds in those of til-seed. The transactions in the first-mentioned seed with the Central Provinces, the Province of Berár, and the Nizám's Territory have decreased during the year by 1,076,936 maunds, 522,941 maunds and 201,628 maunds respectively, but there were increases of 38,379 maunds, 91,849 maunds and 707,219 maunds in its imports from the Punjáb, Rájputána and Central India, and North-West Provinces and Oudh. The decrease in mustard-seed is due to the much smaller imports from the Punjáb which amounted to 442,830 maunds only against 1,092,846 maunds in the preceding year. The increase under til-seed is apparent chiefly in the imports from the Central Provinces and the Nizám's Territory.

Sugar, drained and undrained.—The imports rose from 87,104 maunds to 325,075 maunds. This improvement is due to the increased imports of drained sugar into the Bombay Port and Khándesh Násik and Ahmednagar from North-West Provinces and Oudh, and again into the Southern Marátha Railway Block from Madras and Mysore; so also of undrained sugar from North-West Provinces and Oudh, Bengal, Madras, and Mysore.

Tobacco.—An increase of 3,053 maunds in this article is due to the larger imports from Madras into the Southern Marátha Railway Block, which amounted to 3,468 maunds against but 6 maunds in the year 1885-86.

8. The export trade or the trade under the second head shown in paragraph 5 hereof is given below for comparison with that of the year 1885-86 with reference to External and Internal Blocks :—

To External Blocks.		From Bombay Port.	From Gujarát and Káthiáwár.	From South of Narbada and below the Ghâts.	From Khándesh, Násik and Ahmednagar	From Poona and Sholá-pur.	From Southern Marátha Railway.	Total in Maunds.	Value in Rupees.

All the Internal Blocks show an increase in the trade exported by them, that in the Bombay Port alone amounts to 1,695,071 maunds, and is especially due to the larger exports of Railway Plant and Rolling Stock to Rájputána and Central India.

Exports to External Blocks.

9. The exports of the Presidency from the year 1884 are compared in the following statement with reference to some of the principal articles:—

Articles.	Quantity in Maunds.			Value in Rupees.		
	1884-85.	1885-86.	1886-87.	1884-85.	1885-86.	1886-87.
	Mds.	Mds.	Mds.	Rs.	Rs.	Rs.
Coal	336,826	426,300	856,347	2,03,499	2,57,556	4,99,536
Cotton, raw	10,436	9,744	63,977	1,86,543	1,90,820	12,24,893
Cotton Goods	720,716	944,946	948,313	2,94,89,869	3,68,58,906	3,67,12,019
Wheat...	59,660	38,615	115,369	1,88,923	1,07,800	3,12,458
Other Food-grains ...	48,825	44,502	166,600	1,21,748	1,12,572	3,94,301
Copper, unwrought ...	40,603	97,157	74,016	12,69,478	27,11,794	17,33,208
Iron...	600,801	659,285	829,597	26,47,279	25,65,031	33,14,067
Other Metals	113,083	129,111	199,109	23,81,235	24,84,077	50,24,848
Other Oil-seeds	9,483	8,977	30,061	38,722	37,773	1,13,901
Salt	2,455,043	3,910,896	3,644,491	61,50,394	96,95,763	90,92,246
Silk, raw, Indian	194	70	2,588	63,022	23,319	3,72,672
Tea, Indian	878	1,290	8,091	68,858	82,641	5,65,232
Tobacco	192,369	186,297	250,933	21,43,111	17,50,416	24,74,042

Coal.—An increase of 430,047 maunds is chiefly due to the exports of 393,747 maunds from Gujarát and Káthiáwár to Rájputána and Central India.

Cotton, Raw.—The Southern Marátha Railway Block exported 56,099 maunds of cotton to Madras, which has given rise to the increase of 54,233 maunds.

Cotton, Goods.—The transactions under this head are nearly the same as in the previous year. There is an increase of 25,238 maunds in the exports of twist Indian, and piece-goods European, from Gujarát and Káthiáwár to the External Blocks, North-West Provinces and Oudh, the Punjáb, and Rájputána and Central India, and a decrease of 22,871 maunds in the exports of twist European, and piece-goods Indian. The decrease in the values amounting to Rs. 1,46,887 is due to the falling off of the prices per maund from Rs. 59-5-10 for twist European, and Rs. 30-5-2 for twist Indian, to Rs.. 57 and Rs. 29-2-3 respectively.

Grains, including Wheat.—There is an increase of 198,852 maunds in the exports of these grains. The trade under each sub-head has improved.

Metals.—Except copper, unwrought, all the other sub-heads of metals including tin indicate an improvement of 216,186 maunds. Under iron the improvement is of 170,312 maunds.

Salt.—There is a decrease of 266,405 maunds, while the trade with the Punjáb, North-West Provinces and Oudh, and Rájputána and Central India has decreased by 78,323 maunds, 394,739 maunds and 61,034 maunds respectively, and that with the Central Provinces, the Province of Berár, the Nizám's Territory and the Madras Presidency has increased by 154,691 maunds, 14,483 maunds, 90,344 maunds and 8,089 maunds respectively.

Silk, Raw, Indian.—An increase of 2,518 maunds under this head is chiefly due to the exports of 2,425 maunds from the Bombay Port to the Punjáb.

Tea, Indian.—There is a net increase of 6,801 maunds, and this is due to the exports from the Bombay Port to the Punjáb, being 6,721 maunds as against 24 maunds in the preceding year.

Tobacco.—There is an increase of 64,636 maunds. The exports from the Gujarát and Káthiáwár Block to Rájputána and Central India rose from 186,297 maunds to 228,045 maunds.

Internal Trade.

10. The following statement compares the local trade in principal articles for the last three years :—

Articles.	Quantity in Maunds.			Value in Rupees.		
	1884-85.	1885-86.	1886-87.	1884-85.	1885-86.	1886-87.
	Mds.	Mds.	Mds.	Rs.	Rs.	Rs.
Cotton, raw	2,801,138	2,414,568	3,110,132	5,00,70,342	4,72,85,290	5,95,46,069
Wheat	2,242,987	1,963,536	4,539,252	71,02,792	54,81,537	1,22,93,807
Jowár and Bájra	302,550	462,861	1,663,337	6,47,646	7,40,095	34,39,296
Metals, including Tin ...	712,404	859,489	1,000,646	64,80,555	78,06,842	91,65,418
Other Oil-seeds, including Castor	484,138	495,098	1,170,308	19,70,439	20,00,566	44,00,823
Salt	961,466	1,023,775	1,117,219	24,08,665	25,38,109	27,87,228
Opium	1,409	362	1,149	9,93,895	2,56,388	8,10,979
Railway Plant and Rolling Stock	3,235,864	2,816,642	3,475,984	97,07,592	1,12,66,568	1,73,79,920
Timber	612,387	779,592	936,026	24,49,548	31,18,368	37,44,104

The exports of wheat from Khándesh Násik and Ahmednagar to the Bombay Port rose from 1,124,352 maunds to 2,375,919 maunds, thus causing an increase of 1,251,567 maunds. The increases in cotton raw (695,564 maunds) and Jowár and Bájra (1,200,476 maunds) are similarly due to increased imports into the Bombay Port from Khándesh Násik and Ahmednagar, Poona and Sholápur, and Southern Marátha Railway Blocks. Oil-seeds "Others," including castor, indicate an improvement to the extent of 675,210 maunds; this is perceptible chiefly in the imports of the Bombay Port (747,919 maunds against 329,367 in the preceding year), South of Narbada and below the Ghats, Khándesh Násik and Ahmednagar, and Poona and Sholápur.

Changes in Railway Freights.

11. The changes made from time to time by the Railway Companies within the Presidency as regards the freight on the articles of trade, as classified by the Government of India, are enumerated in the following paragraphs.

Coal—Was charged at Rs. 6-4 per ton from Carnac Bridge to Baroda or Ahmedabad in consignments of 160 maunds or over from quarter ending 31st March 1887. It was previously charged at Rs. 7-7-3 and Rs. 7-14-0 per ton respectively. Over the Southern Marátha Railway coke was classed under coal; and on the Bhávnagar and Gondal Railway charges for coal were made subject to a minimum rate as for two tons per wagon when loose from quarter ending 31st March 1887.

Cotton, Raw, over B. B. & C. I. Railway and R. M. Railway.—During quarter ending 31st December 1886 cotton loose in bags packed in bales 6′×3′×3′ or over was charged at one pie per maund per mile and less than 6′×3′×3′ at 0·85 pie per maund per mile over metre gauge and at 0·8 pie per maund per mile over broad gauge in booking with stations on the metre gauge, but in the preceding quarter all cotton loose in bags was charged at 1 pie per maund per mile over metre gauge and at 0·7 pie over broad gauge in booking with

stations on the former. The changes in freight for pressed cotton are noted below:—

Cotton.	Quarter ending 30th September 1886.		Cotton.	Quarter ending 31st December 1886.	
	Broad Gauge.	Metre Gauge.		Broad Gauge.	Metre Gauge.
	Per Md. per mile.	Per Md. per mile.		Per Md. per mile.	Per Md. per mile.
Squeezed, *i.e.* pressed from 8 to 14 lbs. per cubic foot in booking with stations on the metre gauge.	0·45 pie.	0·8 pie.	Half-pressed, *i. e.* pressed from 7 to 12 lbs. per cubic foot in bales 6′ × 3′ × 3′ or over.	0·45 pie.	1·0 pie.
Half-pressed, *i.e.* pressed from 14 to 20 lbs. per cubic foot in booking from and to stations north of Sábarmati.	0·4 pie.	0·7 pie.	But when less than 6′ × 3′ × 3′ in booking with stations north of Sábarmati.	.....	0·85 pie.
			Three-fourths or intermediate pressed, *i. e.* pressed from 12 to 24 lbs. per cubic foot in booking to and from stations north of Sábarmati.	0·4 pie.	0·7 pie.

Full-pressed Cotton and Wool of Classes E and F.—From and *vid* Agra to Bombay was charged at Rs. 1-5-6 per maund during the third quarter, the previous rate being Rs. 1-8-1 per maund; and in the last quarter only cotton of the same classes from Kasgunj, Hathras City, and Ulwar to Bombay was charged at Rs. 1-5-6 per maund, and from and *vid* Cawnpore it was charged at Rs. 1-8-0 per maund, no such special rates from stations other than Ulwar, the rate charged from which was Rs. 1-6-6 per maund, were in force during the preceding quarter.

Cotton Piece-goods, Yarn, and Twist.—The rate from Bombay to Delhi was changed from Rs. 2-7-2 to Rs. 2-6-7 per maund during the second quarter of the year under review. A special rate of Rs. 1-14-5 per maund from Ahmedabad to Cawnpore *vid* Achnera came into force in quarter ending 31st March 1887; also Rs. 2-5-0 per maund from Bombay to stations between Perkham and Fatehgarh, and Rs. 2-7-0 per maund from Bombay to Kamalgunj, and to and *vid* Cawnpore.

Cotton Thread, Twist, and Yarn.—From quarter ending 31st December 1886 these articles have been charged at Rs. 1 per maund from Jalgaon, a station in Khándesh Násik and Ahmednagar Block, to and *vid* Jabalpore, the rates Rs. 1-11-5 and Rs. 1-10-9 charged before being cancelled.

Wheat, other Grains and Seeds.—Changes in the freight of these articles are given in the following statement:—

Articles.	Junctions by which Charges are made.	Over B. B. & C. I., R.-M. and C.-A. Railways.				Junction by which Charges are made.	Over G. I. P. Railway.	
		30th June 1886.	30th September 1886.	31st December 1886.	31st March 1887.		30th September 1886.	31st December 1886.

Malted Barley.—This has been charged over the B. B. & C. I. Railway at special class rate from quarter ending 30th September 1886 instead of at second class rate charged previously, and over the G. I. P. in local booking it is charged at grain rates from 1st February 1887.

Gunny screwed.—The maximum weight charged for per bale was increased from 7 to 9 lbs. in quarter ending 30th September 1886.

Metals.—Copper, unwrought, under twenty sers in weight, when securely packed in boxes, was charged over the B.B. & C. I. Railway at first class and at Railway risk, but when otherwise packed, at first class and at owner's risk from quarter ending 31st March 1887 instead of at first class rate charged indiscriminately up to the end of the previous quarter. Copper scrap on the B. and G. and S.-M. Railways, and Brass scrap on the latter only have been charged at first class. Brass nails and screws over the G. I. P. Railway have been charged at third class rate from quarter ending 30th September instead of at second class.

The special rates for *Iron, Steel, Spelter and Zinc* of the descriptions specified in Section 48 of the B. B. & C. I. Railway Goods Tariff, for quarter ending 31st March 1887, are given below with reference to certain stations on the R.-M and C.-Achnera Railways :—

Station from	Quarters of the year.	To and *viâ* Delhi.	To Stations between Jeypore and Palam, and *viâ* Agra and Agra Cantonment.	To Stations between Perkham and *viâ* Hathras Junction.	To Stations between Ratika Nágla and Fatehgarh.	To Stations between Kamalgunj and Cawnpore.
		Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Bombay*	31st December.	1 0 0	No such special rates were in force in this quarter.			
	31st March ...	0 14 8	1 0 0	1 0 0	1 1 0	1 2 0

* But when booked from Carnac Bridge, 2 pies extra per maund are charged.

Damask—Is charged as piece-goods, *i. e.* when pressed or iron bound at second class, and when not pressed or iron bound, at third class in local booking over the S.-M. Railway; and in through booking from Bombay it is charged at special rates from quarter ending 31st March 1887.

Salt.—The increased special rates for through booking of salt from Khárághoda *viâ* Dádar Junction to stations between Dongargaon and Mirganj of the G. I. P. Railway were cancelled from 1st August 1886, after which date the rate charged for is Re. 0-7-6 per maund for the B. B. & C. I. Railway's proportion between these two stations. From Khárághoda to and *viâ* Cawnpore it has been charged at Re. 0-11-11 per maund from quarter ending 31st March 1887, there being no such special rate in force previously.

Ghee—Was charged at first class over the B. B. & C. I. Railway from quarter ending 31st March instead of at second class rate.

Tea.—The first class rate for tea in force when booked to Bombay *viâ* Sábarmati, from and *viâ* Delhi, Agra, Achnera, and Ferozepore in quarter ending 30th June 1886, was made applicable when it was booked to or from Bombay.

Tobacco, Native; Raw.—Special rates in through booking *viâ* Dádar with stations on the G. I. P. Railway for tobacco from Baroda and the stations only to the north of it were increased from 1st August 1886. The special rates in local booking for Bombay, Bassein Road and Bándra from all the stations to the north of Baroda were increased and second class rate charged in booking between stations on the broad gauge system of the line; the rates between a few stations (1) to the north of Baroda and (2) those to the south of Surat charged in quarter ending 30th June were cancelled. A special rate of Re. 0-11-4 per maund from Wadhwán to Dádar Junction was made applicable both ways in the last quarter of the official year 1886-87.

Epsom Salt.—In local booking over the G. I. P. Railway from 1st February 1887 when sent in consignments of not less than thirteen maunds and a half, and over S. M. Railway of not less than ten maunds, was charged at second class and at owner's risk, but when sent in smaller consignments it was charged at fourth class rate at Railway risk, as before, as for drugs, Europe.

Crimson (Dyes—Others)—Was charged at third class in local booking over the G. I. P. Railway instead of fifth in quarter ending 31st December 1886.

Liquors.—Over the G. I. P. Railway, Ale, Beer, Porter, and Malt Liquor are charged at first class rate from 1st June 1886 instead of at 2nd class rate, and over the B. B. & R.-M. Railways at first class rate, restriction of the distance of 500 miles being removed from quarter ending 30th September.

Leather, Coloured.—Over the G. I. P. Railway it has been charged at third instead of second class rate from 1st July 1886.

Oils.—The reduction in the freight of Kerosine oil over the B. B. and R.-M. Railways when booked from Bombay to certain stations will be seen in the following statement.

From Station.	Agra Fort.		Ferozepore.		Achnera.		Delhi.	
	30th September.	31st December.	30th September.	31st December.	30th September.	31st December.	30th September.	31st December.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Bombay ...	1 9 2	1 4 2	1 15 11	1 7 1	1 8 9	1 4 0	1 10 5	1 8 0

Oil, Carbolineum and Jessamin, and Oil-fish—charged over the S. M. Railway at third and second class respectively from quarter ending 31st March 1887.

Cards for carding machines, Card-boards, and Mill-boards—Were charged at third class rate up to 30th June 1886 and after that date at fourth class over the G. I. P. Railway.

Dry Dates, which were not classified upto 31st December last, have been charged after that date at first class rate over the B.-G. Railway.

Provision, Others.—(Ládus and Sweetmeat).—Over the G. I. P. Railway charged at first class from 1st September 1886 instead of fourth class rate.

Construction stores for Ferozepore Bridge.—Over the B. B. and R.-M. Railways when booked from any station in Bombay is charged at Rs. 1-6-6 per maund, but girders are charged at Rs. 1-3-6 per maund from quarter ending 31st September 1886.

Saltpetre.—From Cawnpore to Bombay or *vid* Dádar in consignments of 160 maunds or over is charged at Re. 0-12-9 and from Farukabad at Re. 0-12-7 per maund.

Flag or paving stones over the G. I. P. Railway.—The rate for these stones of 7 pies per ton per mile *plus* Rs. 1-2-0 as terminal charge if loose, came into force in quarter ending 30th September 1886, but if packed they are charged at first class rate as before.

Timber.—The special rates shown above for iron, steel, &c., from Bombay to certain stations are made applicable to this article.

Wool, loose in Bales.—When booked to Bombay from Sirsa and stations to the north of Sirsa on the R.-F. Railway the freight charged for is Rs. 3-3-7 at owner's risk, and Rs. 3-15-1 at Railway risk, from quarter ending 31st March 1887.

Wool, Raw.—Over B. B. & C. I. Railway has been charged, when in bales not exceeding 6′ × 3′ × 3′, at third class from quarter ending 30th september 1886.

Woollen Piece-goods (European)—Over the S. M. Railway Flannel and Broadcloth are charged at third class from quarter ending 31st March 1887; the first of these articles was previously charged as for cotton piece-goods and the second was not classified.

Engines other than portable or traction—Were charged on the B. & G. Railway at third class, but from quarter ending 31st March 1887 are charged as "Machinery".

Boilers.—Over the B. B. & C. I Railway are charged at second class rate from quarter ending 30th September 1886.

Ordnance Stores and all Government property of whatever nature not otherwise classified by the Ordnance Department.—The minimum charge in case of explosives consigned by the Ordnance Department is as for 20 maunds over the B. B. & C. I. and R.-M. Railways from quarter ending 31st March 1887, there being no such restriction previously. Over the S. M. Railway it has been charged from the same period at ⅛ pie per maund per mile subject to a minimum as for 20 maunds in the case of explosives.

Kerosine Oil Tins, empty.—From 1st July 1886 are charged at second class instead of first class over the G. I. P. Railway.

Road-borne Trade.

12. This year no change has been introduced into the system under which the statistics of this trade are collected and compiled. The entire trade, when compared with that for the corresponding year, exhibits a decrease of 284,666 maunds but an increase of 384,404 maunds on a comparison with the year 1884-85.

13. In the following statement is compared the trade with its value for the last three years:—

Nature of Trade.	1884-85.		1885-86.		1886-87.		Figures for 1886-87 compared with those for			
							1884-85.		1885-86.	
							Increase or Decrease.		Increase or Decrease.	
	Indian Maunds.	Rs.	Indian Maunds.	Rs.	Indian Maunds.	Rs.	Indian Maunds.	Rs.	Indian Maunds.	Rs.
Imports	2,973,198	2,10,67,953	3,664,504	2,06,54,342	3,428,593	2,33,74,020	+455,395	+23,06,067	—235,911	+27,19,678
Exports	790,692	69,77,687	768,456	72,61,599	719,701	57,25,549	—70,991	—12,52,138	—48,755	—15,36,050
Total ...	3,763,890	2,80,45,640	4,432,960	2,79,15,941	4,148,294	2,90,99,569	+384,404	+10,53,929	—284,666	+11,83,628

To the total trade, the imports into the Presidency contribute 3,428,593 maunds or 82·7 per cent., and the exports 719,701 maunds or 17·3 per cent.

The *increase* in value, notwithstanding decrease in quantity of the trade for 1886-87, as compared with 1885-86, is due to higher rates being quoted for other oils and other dyes and tans, &c., &c.

14. The following statement represents the imports of the last three years with reference to districts:—

Districts.	1884-85.		1885-86.		1886-87.		1886-87—more or less than 1885-86.
	Indian Maunds.	Per cent.	Indian Maunds.	Per cent.	Indian Maunds.	Per cent.	
Sholápur	1,056,291	35·52	1,355,454	36·99	1,406,475	41·02	+51,021
Ahmednagar	624,426	21·01	815,061	22·24	509,260	14·85	−305,801
Násik	371,723	12·51	436,035	11·90	496,098	14·47	+60,063
Panch Mahás ...	251,012	8·21	420,222	11·47	323,862	9·44	−96,360
Khándesh	262,258	8·82	290,141	7·92	318,614	9·29	+28,473
Kánara	147,231	4·96	131,960	3·60	166,690	4·86	+34,730
Dhárwár	173,695	5·86	156,913	4·28	143,252	4·18	−13,661
Bijápur	63,302	2·32	33,468	·91	37,695	1·10	+4,227
Mahi Kántha... ...	23,260	·79	25,250	·69	26,647	·79	+1,397
Total ...	2,973,198	100	3,664,504	100	3,428,593	100	−235,911

From these figures it will be observed that the imports into almost all the districts, except Ahmednagar, the Panch Mahás, and Dhárwár exhibit improvement.

15. The following table represents the import trade in principal articles for the last three years:—

Articles.	Quantity in Maunds.			Value in Rupees.		
	1884-85.	1885-86.	1886-87.	1884-85.	1885-86.	1886-87.
	Mds.	Mds.	Mds.	Rs.	Rs.	Rs.

Total ...	4,148,294	100·00	Total ...	4,148,294	100·00

20. The district officers report no change in the transit duties levied by the Native States.

21. I shall now proceed to record briefly the remarks of district officers on the trade of their districts.

Khándesh.—Mr. G. R. Mokashi, District Deputy Collector in charge Palasner Náka, reports as follows :—

"The increase in the important items of both import and export is due to scanty rainfall, inasmuch as the rayats, whose store of food and other grains which they generally lay by to meet the demands of a bad year was exhausted owing to the last year's harvest having resulted to be unfavourable, if not wholly abortive, and had consequently to purchase such of the articles, including food, grains, &c., as were required for their current use as well as for replenishing their emptied stores, and as regards export they had to sell such of the surplus grain (which was grown more than the requirement of the agriculturists) at markets wherever the articles fetched good prices. Consequently those articles had to be exported. For instance, jowár, bájri, gram and other grains were imported to a very considerable extent, while wheat, which is grown in abundance in Khándesh, was exported moderately after reserving such quantity as was required for local consumption and storage for future use by the growers thereof. Raw (uncleaned) cotton has been imported for the purpose of being cleaned from parts of the Indore, Dhár and Nimar Territories which lie nearer to Dhulia, where there are a number of ginning factories and presses worked by steam power, than other centres where similar advantages are available. The cotton crop having failed last year, the import under that head was much below the average. It cannot be said that it has reached this year to its previous average as the import in the year under report is 8,599 maunds against 16,301 maunds in the year before last, *i. e.*, in 1884-85. The general falling off is no doubt owing to the extension

of the Railway system and lowering of the rates for freight both on the G. I. P. Railway and the Holkar State Railway. This has doubtlessly induced those who could save something by consigning their cotton by Railway instead of despatching it by ordinary roads."

"The decrease in the import of 6,210 bales of Indian Piece-goods evidently appears to be attributable to the people taking a peculiar liking in a greater measure, day by day, to the foreign piece-goods on account of their fineness and cheapness than to indigenous coarse stuff sold at a somewhat higher price than its worth."

Mr. R. A. L. Moore, Assistant Collector in charge of Raver, Jamti, Edalabad, and Wákad Nákás, reports that the differences in the import and export trade by Edalabad and Jamti Nákás are probably owing to 1886-87 having been a better year for agriculturists than 1885-86. The reason for the decrease in the export trade by Ráver Náka may be found in the fact that the late December rain, 1886-87, injured the jowári, cotton, and tili crops.

Násik.—An increase in the imports of wheat *viâ* Nándgaon Náka, says the Collector, was owing to a good harvest of the rabi crops. The imported goods were chiefly brought from Jálnápur, Aurangabad, and Deogan in the Nizám's Territory. Almost all the exported articles were brought from Bombay by rail, save rice, which were brought from Nágpur and Central Provinces. The returns for Yeola Náka show an increase of 109,819 maunds in the import trade.

Bijápur.—The Collector reports that Ilkal Náka being about 40 miles from the nearest Railway Station, the people find it more profitable to import articles from the neighbouring territory of His Highness the Nizám.

22. I append a map showing the positions of the Nákás as well as the blocks into which the Railway lines in India have been divided for registration of the rail-borne trade of the Bombay Presidency.

23. I also append a statement of expenditure, from which it will be seen that the expenditure incurred on account of the Náka establishment during the year under review amounted to Rs. 10,736-14-6 as against Rs. 11,498-10-4 or Rs. 761-11-10 less than the last year. Of the above, Rs. 9,961-3-7 was on account of salaries and Rs. 775-10-11 on account of contingencies. The total expenditure on account of the registration of rail-borne trade amounted to Rs. 4,157-13-1 against Rs. 4,130-5-11 last year.

I have the honour to be,
Sir,
Your most obedient Servant,
C. M. MOBERLY, Colonel,
Examiner of Guaranteed Railway Accounts.

LIST OF APPENDICES.

RAIL-BORNE TRADE.

A.—Table of Percentage Deductions from Gross Weights of Rail-borne Trade to obtain Net Weights, and also of Prices furnished by the Chief Account Officer of Customs, Salt, Opium and Ábkári, Bombay, for valuation of Rail-borne Trade for the years 1884-85, 1885-86 and 1886-87.

B.—Statement showing the total Rail-borne Imports and Exports of the Bombay Presidency during the year ending 31st March 1887, compared with the Imports and Exports of the preceding year.

C.—Statement showing Trade by Rail between the different Blocks of the Bombay Presidency and the different other Provinces during the year ending 31st March 1887.

D.—Statement showing Trade by Rail between the different Blocks of the Bombay Presidency during the year ending 31st March 1887.

ROAD-BORNE TRADE.

E.—Statement showing the total quantity and value of Imports of each District during the year 1886-87.

F.—Statement showing the total quantity and value of Exports of each District during the year 1886-87.

G.—Statement showing the total quantity of Imports of the Road-traffic across each Post during the year 1886-87.

H.—Statement showing the total quantity of Exports of the Road-traffic across each Post during the year 1886-87.

I.—Statement showing details of Expenditure incurred in connection with the Registration of Rail and Road-borne Trade from 1st April 1886 to 31st March 1887.

A.

Table of Percentage Deduction from Gross Weights of Rail-borne Trade to obtain Net Weights, and also of Prices furnished by the Commissioner of Customs Salt, Opium, and Abkári, Bombay, for valuation of Rail-borne Trade for the years 1884-85, 1885-86 and 1886-87.

No. 1677 OF 1887.

Poona, 23rd September 1887.

Submitted to Government.

2. The undersigned begs to offer a brief summary of the tabular statements, which have been carefully prepared and reviewed by the Examiner.

3. *Rail-borne Trade.*—In round numbers the figures show a considerable increase both in the total trade and in the recorded value—the increase in the trade being 8 million maunds and that in the value about 7 crores of rupees. Imports and exports, *i.e.*, trade with the external blocks, make up 57 per cent. of the total. The remainder, 43 per cent., represents the local trade or trade of internal blocks *inter se*.

	1885-86.	1886-87.
Imports	31	32
Exports	10	12
Local Trade	28	33
Total Million Maunds ...	69	77

4. The subjoined statement shows the chief imports into, and exports from, the Bombay Presidency:—

Imports into Bombay Presidency from Sind and the rest of India.	Maunds.	Exports from Bombay Presidency to Sind and the rest of India.	Maunds.
Wheat	1,43,92,379	Salt...	36,44,491
Other food-grains	30,34,529	Railway Plant	29,48,506
Oil-seeds	67,91,285	Metals	11,02,722
Cotton (raw)	34,22,027	Coal	8,56,347
Dyes and Tans	4,28,856	Cotton Piece-goods (European).	6,45,256
Sugar	3,25,075	Cotton Piece-goods (Indian)	1,67,752
Wool (raw)...	1,18,147	Provisions (dried fruit and nut.)	4,31,010
Provisions (Ghee)... ...	1,03,392	Sugar	3,67,860
Opium	77,264	Kerosine Oil	2,65,062
Others	30,57,523	Tobacco	2,50,933
		Jute, gunny bag and cloth.	2,41,1[illegible]
		Others	16,5[illegible]
Total ...	3,17,50,477	Total ...	[illegible]25,77,080

[illegible]bout 88 per cent. of the imports are received by the P[illegible] Bombay alone, and are chiefly for [illegible]ort beyond the seas. Grains show only a[illegible]t increase. Of the total imports (17½ mil[illegible] maunds) wheat is credited with about 14 millions and is principally received as i[illegible]ated marginally. Thus though there is [illegible]y a slight increase on the total impor[illegible] grains, wheat alone shows an increase of [illegible] million. On the other hand oil-seeds show a decrease of more than one [illegible]ion maunds due to lessened receipts of linseed from the Central Provi[illegible] Berar and the Nizam's Territory and of mustard and rape from the P[illegible]b, the Central Provinces and Berar. The imports of cotton show an in[illegible]se, which is greater than the decrease in oil-seeds. Half the cotton come[illegible]om Berar, and the rest mostly from the N.-W. Provinces and Oudh [illegible]rom Rajputana and Central India.

Punjab	1
Rajputana and Central India.	2·4
N.-W. Provinces and Oudh...	1·3
Central Provinces	7·6
Berar	2
Total ...	14·3

5. The sources of other principal imports are :—

Dyes and Tans (Myrabalans)—Central Provinces.

Sugar—Madras, Bengal and N.-W. Provinces and Oudh.

Wool—Rajputana and Central India.

Ghee—N.-W. Provinces and Oudh and Central Provinces.

Opium—Rajputana and Central India.

Of the 12 million maunds of exports 3½ millions were credited to salt against 4 millions in the previous year. In order of importance the other chief exports were railway plant and rolling stock, metals, cotton piece-goods, dried fruit, sugar and kerosine oil, *i.e.*, articles mostly from foreign ports shipped to Bombay for up-country demand. Salt went chiefly to Central Provinces and to the N.-W. Provinces and Oudh, railway plant and rolling stock to Rajputana and Central India. The export of tobacco from Gujarát and Káthiáwár to Rajputana and Central India increased by about 40 per cent.

6. *Local Trade by Rail.*—Of the 33 million maunds included under this head, Bombay Port received 15¾ and sent out 10¾ millions. The receipts were chiefly grains (6¼ including wheat 4½), cotton and cotton goods (3) and oil-seeds and oil (3¼ million maunds). Bombay despatched 4 million maunds of coal and 2¼ million maunds of railway plant and rolling stock. As noticed last year the cotton trade on the Southern Marátha Railway increased during the year from 67,000 to 2,59,000 maunds or about 4 times. Of these the exports to Bombay Port amounted to 2,03,000 maunds, while 56,000 maunds went to Madras, which is a new feature in trade during the year.

7. The following is a short analysis of the trade in important export staples :—

The import and local trade in cotton, wheat and oil-seeds, which are the chief articles of export to Europe, is almost all centered in the Bombay Port. The export trade in these articles, *i.e.*, to external blocks, is insignificant. During the year under report the total trade in cotton and wheat shows a marked improvement, while that in oil-seeds, chiefly linseed, mustard, and rape, shows a considerable falling off. The total trade in cotton rose from 47½ lákhs of maunds to 65¼ or by 37·4 per cent., the increase being 23·2 per cent. in imports and 14·2 per cent. in local trade; similarly the trade in wheat increased from 156 to 189¼ lákhs or by 21·3 per cent., the increase being 4·8 per cent. in imports and 16·5 in local trade. The season both for cotton and wheat was unusually good in the Presidency, and this appears to have been the case elsewhere also, as can be inferred from the very large increase both in the imports and in the local trade. It is interesting to notice that the development of the wheat trade does not seem to have affected the produce of other food crops in the Presidency. The local trade in jowári and bájri increased from 4½ lákhs to 16½ lákhs or by 266 per cent. The season, especially in the Deccan and Karnátak, was also favourable to these articles.

As regards oil-seeds, the season in the Presidency was very unfavourable for linseed which is the principal oil-seed exported from Bombay. This accounts for the large decrease (from 16 to 9½ lákhs) in the local trade.

The exports by sea from Bombay during the year amounted to 5[illegible] lákhs of maunds of cotton or 89 per cent. of the total cotton imports into Bombay both from external and internal blocks; to 173 lákhs of wheat or 92·5 per cent. of the total wheat imports and to 80¾ lákhs of linseed, mustard and rape and gingelly or 92 per cent. of the total oil-seed imports. Compared with last year, the exports correspond with the imports in showing an increase as regards cotton and wheat and a decrease as regards oil-seeds (except til).

The following statement shows the details :—

Produce.		Imports.		Local Trade (chiefly Imports into Bombay).		Total Imports and Local Trade.		Exports by Sea from Bombay Port.

The total in column 7 does not include the imports by sea from Káthiáwár and South Konkan ports, which are now, however, comparatively insignificant owing to the extension of the railway. The exports by sea in column 8 are taken from the weekly returns printed by the Chamber of Commerce.

8. *Road-borne Trade.*—The total road-borne traffic registered amounted to 4¼ million maunds compared with 4½ millions of the previous year. Of this amount the imports made up 82 per cent. against 83 in the last year. This trade is practically the traffic with Native States and the figures need not be taken as absolutely representing the trade over and above the rail-borne trade of the Presidency, as much of it is again registered as local rail-borne traffic. With a view to effect a saving, the registration of the road traffic is now carried on under the direction of the Director of the Department of Land Records and Agriculture on a modified plan as sanctioned in Government Resolution No. 8352, dated 26th November 1886 (Revenue Department.)

	1885-86.	1886-87.	Increase or Decrease.
Rail	4,131	4,157	+26
Road...	11,498	10,736	-762
Total ...	15,629	14,893	-736

9. The cost of trade registration is shown marginally.

W. P. SYMONDS,
Acting Director, Land Records and Agriculture, Bombay.
